NEW HEAD CHOSEN

Mr. Kafandaris Accepts Duty of Forming Another Government and Is Optimistic

Republicans Express Opinion Ministry Cannot Survive 24 Hours

ATHENS, Feb. 4 (P)-The Premier Eleutherios Venizelos, and his Cabinet, resigned office today. A new Ministry will be formed by Mr. Kafandaris,

istry will be formed by Mr. Kafandaris, former Minister of the Interior.

By the verdict of four physicians who examined him this morning Mr. Venizelos decided to give up his post at the head of the Greek Government and abstain from all his wonted activities for an indefinite period.

It was announced at noon that Mr. Venizelos would submit his reaignation before the day was over, Mr. Kafandaris, former Minister of the Interior, who was requested by the Regent Saturday to form a Cabinet, having stated he was confident of constituting a Government that would receive the support of the National stituting a Government that would re-ceive the support of the National

It is exactly a month to the day that Mr. Veniselos arrived in Athena with the intention of assisting his disrupted country to reach some form of stable and orderly government. His return was at the insistent solicitation of practically the whole of Greece. On his arrival he stated that he did not intend to accept office of any description and that he merely intended to stay in the country until the question of the return of the dynasty of the Glückpburgs had been decided by the people through the taking of a plebiscite and what form of government the country desired. In apite of his protests, however, and owing to the manifest impossibility of selecting a president of the Assembly agreeable to all parties, Mr. Venizelos was persuaded to accept the

Venizelos was persuaded to accept the premiership and formed a cabinet. Circumstances, however, have been too strong for the Cretan patriot, and he has been compelled to once more lay down the reins of office.

By Special Cable

ATHENS, Feb. 4-Eleutherios Veni-ATHENS. Feb. 4—Eleutherios Venirelos is better. Numerous cablegrams
are arriving from all parts of the
country with expressions of good will
toward the Greek statesman. Intense
activity is being displayed to prepare
the ground for the new Cabinet. The
Regent, studying the situation and
sounding the dispositions of the political feaders, is interviewing politicians and preparing to locate the clans and preparing to locate the right man in the right place. The Republicans upheld Constan-

SOVIET UNION SOON; TERMS AGREED ON

Important Convention Covers

Same Direction—Certain Features Not Popular

By Special Cuble

MOSCOW, Feb. 4—When Maxim Littyfinoff read the British note of recognition are in the Congress to the audience, it was given a mixed reception. Hearty applains greeted the conclusion of the note and the Congress adopted a resolution calling the British act a step toward general peace. A mixed reception was a size visible in official circles, aithough for different reasons. The fact of recognition excitise cordial satisfaction as a tribute to the strength of the Soviet Union and a break in the diplomatic blockade hitherto maintained by the large alied countries.

Karl Radek, after secribing the recognition to three causes—the strength of the Soviet Union to three causes—the strength of the Soviet Union and a break in the diplomatic blockade hitherto maintained by the large alied countries.

However, despite these reservations, the general impression remains distinctly favorable. It is generally felt that British recognition, will influence of the Countries in the same direction, political forces—declared: "Recognition will influence of the Countries in the same direction, to by the strongest European capitalist country has a tremendous significance. It means that all attempts to wring from us material concessions in exchange for recognition has ended unsuccessfully. They recognite us because they believe we exist and shall exist. If recognition is conceded by England, the problem already is aclused for other capitalist countries. Who comes tate will lose thereby. However certain statements accompanying the British note excite reserve here. Regret is expressed in some lauries, above the countries, the division of the Union of Soviet Government countries in the same direction, to be wring from us material concessions in exchange for recognition has ended unsuccessfully. They recognite us become countries in the same direction, to be wring from us material concessions in exchange for recognition and problem already is accused the problem already is accu imported to Russia; thirdly, Russia pledges the purchase yearly of a determined amount of Italian products; fourthly, a join Italo-Russian Commission to fix every year a list of goods to be sold and acquired by the industrialists of the respective countries; fitthly, the traffic to Russian ports on the Black Sea to be carried on exclusively by ships flying the Italian flag; sixth, Italy undertakes to hand over to Soviet representatives all the movable and immovable property to Italy, pertaining to the Tsarist and Kerensky governments.

There are still several unsettled problems regarding the concessions of Russian oil fields and coal zones, and the claims of Italian subjects for sequestrated property in Russia. The duration of the treaty is fixed at three years. Provision is made to open imported to Russia; thirdly, Russia

quration of the treaty is need at three years. Provision is made to open Russian consulates in several Italian towns. Mr. Jordanski, who is expected to be the first Russian Ambassador, will present his credentials to Mayor Curley in His Annual Address to Council Predicts New

Era of Activity

Expressing a belief that a new era of commercial and industrial activity in New England is at hand and that erry for Italian concessionaires, in-

erty for Italian concessionaires, in-sisting on the most stringent require-ments for guarantees against inter-ference, confiscations or the exercise of any political or economic pressure whatsoever.

CAPE CANAL BILL TAKES STEP AHEAD

London (P)—Despite unemployment and the bad trade conditions of last year, British publishers were able to bring out 12.274 new books, which places 1923 only second to 1913 in the history of British publishers were able to report for the year states that, so far as volume of output is concerned, the business has entirely recovered from the year states that, so far as volume of output is concerned, the office of the war. Of the number of volumes published 9246 were new books and 3028 were new editions.

Washington (P)—In its latest.

VENIZELOS CABINET BRITISH RECOGNITION OF SOVIET ITALY TO RECOGNIZE LEADERS OF WORLD PAY TRIBUTE TO WOODROW WILSON'S IDEALS

Woodrow Wilson

President Coolidge's Proclamation

THE death of Woodrow Wilson, President of the United States from March 4, 1913, to March 4, 1921, which occurred at 11:15 o'clock today at his home at Washington, District of Columbia, deprives the country of a most distinguished citizen, and is an event which causes universal and genuine sorrow. To many of us it brings the sense of a profound personal bereavement.

profound personal bereavement.

His early profession as a lawyer was abandoned to enter academic life. In this chosen field he attained the highest rank as an educator, and has left his impress upon the intellectual thought of the country. Prom the presidency of Princeton University he was called by his fellow citizens to be the Chief Executive of the State of New Jersey. The duties of this high office he ap conducted as to win the confidence of the people of the United States, who twice elected him to the chief magistracy of the Resulting.

Republic.

As President of the United States he was moved by an earnest desire to promote the best interests of the country as he conceived them. His acts were prompted by high motives, and his sincerity of purpose cannot be questioned. He led the Nation through the terrific struggle of the World War with a lofty idealism which never failed him. He gave utterance to the aspiration of humanity with an eloquence which held the attention of all the earth and made America a new and enlarged influence in the destiny of manking.

in the destiny of mankind. In the destiny of mankind.

In testimony of the respect in which his memory is held by the Government and the people of the United States, I do hereby direct that the flags of the White House and of the several departmental buildings be displayed at half-staff for a period of 30 days, and that suitable military and naval honors, under orders of the Secretary of War and of the Secretary of the Navy, may be rendered on the day of the funeral.

Done at the City of Washington this third day of February, in the year one thousand nine hundred and twenty-four and of the independence of the United States of America the one hundred and forty-eighth.

By the President: CHARLES EVANS HUGHES, Secretary of State.

MR. WILSON'S CAREER MARKED BY HIGH POLITICAL IDEALS: ROUTED PARTY DICTATORS

Determination to Keep Nation Out of War Until Nothing Short of Hostile Action Could Be Taken Won World-Wide Comment—Respected Nation's Traditions

With little behind him, so far as the | best that was in him to Princeton, and great mass of his countrymen could strive to be worthy of the great trust see, save a record of success as an educator, and as an amateur teache of public morals, that is, in 1910, be-Jersey, and two years before his nom ination for the presidency of the United States, of Woodrow Wilson it was said: "He never has sought offi and office may never seek him: but it is sion of nower that this man makes public affairs should reach the conclunature and development, one of the men in the country to fill one of the country's most responsible

There was nothing associated with the past of Woodrow Wilson to inspire him with or to encourage him in the thought that one of his cloth and calling might burst forth from his sur-roundings and, so to speak, embark upon independent adventure. He was not enamored of convention at any time, nor was he ever a worshipper at the shrine of precedent, but there were some things that were not done A Pessimistic Public

College professors were college pro-fessors, and the public could hardly reconcile itself to any other view of

highly as a teacher, but as a leader—well, hardly. well, hardly.

To make good was the nearest of his most cherished ambitions. If it was going to be Princeton for him, and nothing else, and if the presidency

his preferment, then he would give the

that would go with its presidency.

There was no question anywhere regarding his fitness for the task with which he had evidently decided to be come content. Nothing is more erroneous among the superficial impressions of the man than the belief when he was provided only with the equip

Such an equipment would not have fitted him for the conduct of a great university. He had received a thorough preparatory education in the best schools of Augusta, Georgia; Columbia South Carolina; and Wilmington, North Carolina; before he became a student at four colleges—Davidson, North Carlina; Princeton, New Jersey; the University of Virginia and Johns Hopkins. Maryland; and, consciously or uncon-sciously, whether as student or as teacher, all of his earlier college years were taken up in acquiring and im-parting, and in constantly learning so as to be fitted to teach the very things that were necessary alike to univer-sity administration and to the equip-ment of a public man of the first class

The entire training of the scholar who became president of Princeton, Governor of New Jersey, and Chief Magistrate of the United States in succession, later to become a universal peace arbiter and perhaps the most conspicuous world figure of his times, could hardly have been directed more intelligently or affectively if designed with foreknowledge of his career.

At Dayldson and Princeton his studies took a general classical range. The entire training of the scholar

Congress Halts Temporarily to Do Homage to Father of League of Nations

Party Lines Swept Aside as Nation's Statesmen Cite Value of Wilsonian Standards

Special from Monitor Bureau WASHINGTON, Feb. 4-The nations of the world united today in tribute to Woodrow Wilson. From every capital of the globe came messages expressing, in behalf of countless milions, gratitude for the man and his achievements-and for his vision of a world led into paths of peace through

a League of Nations. Washington paused to honor the man who was President at the time of the Nation's greatest crisis since the Civil War, and who had won great popularity with the residents of the capital by making this city his home since his retirement from office. Congress adjourned for the day after delivery of eulogies by the leaders of

Leaders in Eulogy

The formal eulogies were delivered at noon by Joseph T. Robinson, Democratic leader in the Senate, and Finis J. Garrett. Democratic leader in the House; briefer remarks being offered by Henry Cabot Lodge and Nicholas Longworth, Republican leaders in the Senate and House respectively. At the close, both houses adjourned.

Mrs. Wilson has desired that he should have, as nearly as possible, the treatment of a private citizen in the last ceremonials. Pressure has been brought to bear upon her to permit a great state service, probably in 'the Capitol, with the last resting place in historic Arlington. She waited to hear from Mrs. William G. McAdoo, before giving her final decision.

President Coolidge let it be known that the Government was ready to do anything within its scope to do fitting honors to Mr. Wilson. Informally, the several departments were told to hold themselves in readiness to act when the word should come

from Mrs. Wilson. The Rev. Sylvester Beach, former pastor of the Presbyterian church at Princeton, attended by Mr. Wilson when president of the university, was at the S Street house this morning and announced, after consultation with Mrs. Wilson, that the Rev. James H. Taylor, pastor of the Presbyterian church in Washington, with which Mr. Wilson was affiliated, would have

charge of the service.

Mr. Wilson was a Virginian. That his last resting place should be in the Old Dominion State has been re-garded as probable. It was urged upon Mrs. Wilson that Staunton, his birthplace, would be eminently fit and proper and that it could be made a shrine in the way that Mt. Vernon is and that Monticello is becoming

and that Monticello is becoming.
Arlington, too, is in Virginia, if that should be selected.
That there will be a memorial to Woodrow Wilson is accepted on all hands, and it is possible that the final question of his last abode will not

settled until a future date. Mr. Robinson addressing the Senate today said in part:

served as President may be

served as President may be accounted the most momentous in modern history. Into this short period revolutions of immeasurable importance were crowded. The governmental problems solved during those eight years challenged the prudence, foresight, and courage of the Chief Executive.

As leader of our country in its greatest crisis he is passing into history with opinion divided as to the wisdom of his foreign policies. When confusion has given way to calm conviction he must take high place among the renowned of all the ages because of his exalted ideals.

Senator Lodge's Tribute

Senator Lodge's Tribute Senator Lodge, one of Mr. Wilson's

most uncompromising political foes,

Mr. Wilson was a man of remarkable ability, and of strong character. Through laborious years of thought, and study he devoted himself to securing a mastery of the historical curing a mastery of the historical subjects, the economic questions, and the theory and science of politics and government which commanded his especial interest. He rose to be president of the ancient and honored

his especial interest. He rose to be president of the ancient and honored university of which he was a graduate. From this high place in the field of education, he turned to public life. He was elected to be governor of New Jersey, one of the 13 original states, eminent in our history, and on the soil of which so many of the battles of the revolution were fought. He was then selected and re-elected President of the United States, which is to us and which I believe to be the greatest office among men.

During his period of service in the presidency came the war with Germany, the most terrible war from which mankind has suffered during the period of recorded history. After the victory of the alled and associated powers, it fell to Mr. Wilson to play the leading part in the unspeakably difficult work of making peace. He stood there a chief figure in this great transaction, and so he will stand in the pages of history in the days that are to come. There is no figure more conspicuous than his in the events of that time, which closed one period in the history of mankind and opened another. Here in the capital of the country, the

(Continued on Page 6, Column 2)

position of the Danish scamen is the fact that the general price index when last published showed a figure of 104 per cent above the 1914 level, while the

HAVERHILL, Mass., Feb. 4 (Special)—Compilation of the returns of the referendum voted upon by the locals of the Shoe Workers' Protective Union last week revealed that there will be an extensive publicity campaign. The directors of this pub-licity campaign want to be able to state that the machinery of the agree-ment is in perfect working order with no disagreements existing.

ART

Clavilux Presentation Altogether ingratiating was Thoma

Wilfred's presentation of his invention, the Clavilux, Saturday afternoon and evening, at Jordan Hall. This instrument plays compositions of This instrument plays compositions of light upon a screen in the darkened hall, finding expression in terms of form, color, and motion, which Mr. through." That this statement ex-wilfred said corresponded to the ele-Wilfred said corresponded to the elenents of melody, harmony, and rhythm in music. He boldly announced that the Clavilux has evolved a new art that was given it. form, and went on with arguments to prove his statements, arguments, which were certainly agreeable to adjusted listen to and persuasive in the sense that Mr. Wilfred had his audience in a state of pleasant and receptive suspresent to imagine that they were sitting before a musical performance at which for the first time sound was being presented to them in terms of form where before they had heard only meaningless noise. In this mood were to watch, for the first time

the harnessing of light.

Mr. Wilfred then began his first composition, described on the pro-gram as "Solo: single form ascend-ing; Key: Green, White, Orange; Acpaniment: double form, advance ing, receding, rotating; Key: Green, Blue, White." The Clavilus instrument used Saturday bears a genera sponding to the manuals of a three manual organ. Each of the dozen disks in each set performs an in-dividual function in producing the efcts on the screen. fects on the screen. The operator manipulates these disks according to the notation of his composition.

The forms are presented on the screen stereoscopically, with the result that they have three dimensions and seem to be evolved in space. Out of the void, as if one looked through a great window at night into a starless sky, the merest wraithes of light appear and gradually strengthen. They move with the rhythms of nature rather than those of man. Two wisps of light at the sides appear roughly like the filmiest of window curtains gently agitated by evening zephyrs.

Soon these forms began to rotate

as well as sway—giving two rhythms. Before long a third rhythm was added in a single form, that, first green, then orange, avolved, our orange, evolved out of nothingness strengthened, turned in upon itself when compressed on either side by white and then floated upward into

illimitable space.
In general, the four other composifollowed this sequence, with great variety in the color harmonies and in the semblance of dramatic conflicts between the hues and their complimentaries. In the final composi-tion Mr. Wilfred introduced four simultaneous rhythms.

There was a round of applause for

every composition. The stillness of the audience was proof of the absorb-ing interest of the presentation. The effect of the Clavilus is uncommonly Wilbur—"Up She Goes," 8:10.

BACKS PEACE PLAN

ple, gathered in an American Legion rally for the soldiers' bonus in Me-chanics Hall yesterday, adopted a res-olution demanding that, in the event of another war, the Government shall and liberties of the citizens in defense of the Nation. The resolution, which was directly in line with the plan for a constitutional amendment proposed by The Christian Science Monitor, was introduced by Maj.-Gen. Clarence R. Edwards, commander of the Massa-chusetts Department of the American chusetts Department of the American

Henceforth," declared General Ed wards, "we propose to make it impossible to penalize patriotism. It was the tragedy of the last war that the Nation's material resources were not conscripted along with the young manhood of the Nation. That mistaks crowd in yesterday's meeting was evi-dent from the great cheer it received. and from the unanimous indorsement

Compensation Bill Advocated Other speakers, who advocated the adjusted compensation bill for veterans of the World War, included of the World War, included
John R. Quinn, national commander
of the American Legion, Hanford
MacNider, past commander of the
American Legion, Mayor James M.
Curley of Boston, Aaron Shapiro,
chairman of the legislative committee of the American Legion. Peter Tague, and James A. Gallivan, I sachusetts congressmen. General

Edwards presided.
Although considerable difference of opinion was expressed regarding President Calvin Coolidge, the speakers were in agreement that the sol-diers' bonus should be paid and that the American Legion was prepared to continue, indefinitely, its fight for that continue, indefinitely, its fight for that measure. Mr. Tague, who is a member of the Ways and Means Committee, declared that Andrew W. Mellon, Secretary of the Treasury, "in oppoing signing of the bonus bill by President Harding, gave as his chief reason the fact that in 1922 there was going to be a decir of \$550,000,000 to going to be a deficit of \$650,000,000 in the national income when, in reality there was a surplus of \$313,000,000— a discrepancy of nearly \$1,000,000,000 A year and a half ago Mr. Mellon estimated that the cost of adjusted compensation would be \$80,000,000 a year; now he says it would be \$250. 000,000 a year the first four years Which figure is right?"

Mayor Curley's Speech

Mayor Curley expressed it as his opinion that President Coolidge's statement on the bonus, in his rece message, was "so cold, so callous, so brutal as to startle the whole country.

The message contained the ultimatum

of Wall Street that the appeal of the soldiers must be disregarded." James T. Williams Jr. of the Boston James T. Williams Jr. of the Boston
Transcript, although advocating the
bonus, took up the cudgels on behalf
of the President. Mr. Williams declared that "to keep faith with the
American people the adjusted compensation bill must be passed. It is
not a gift, but a debt of honor."

It was at the conclusion of the
three-hour meeting that General Ed-

three-hour meeting that General Edtion of universal conscription in time of war. The great crowd, evidently was familiar with the idea for it voiced immediate approval when the subject was brought up, and there was no opposition to the adoption of the proposition presented by General Ed-

CANADIAN OPPOSES AMBASSADORIAL POST WORLD VOYAGE

BRANTFORD, Ont. Jan. 31 (Spec Correspondence)-W. F. Cockshutt, former member for Brantford in the House of Commons, in a public address here, stated the appointment of a Canadian Ambassador to Washington would be the last step necessary to sever rela-tions between Canada and the rest of

the Empire. He held that any diffi-culties in United States-Canadian at-fairs could be adjusted satisfactorily by one Ambassador at Washington repre-senting Canada and Britain. Perhaps the best plan would be for Britain to PEACE PROPOSAL the best plan would be for Britain to appoint a Canadian as her Ambassador. Of the three great ties binding the Empire, Mr. Cockshutt believed the appeal to the Privy Council was of greater value to Canada than either the common king or the common flag. The appeal had been of great value to Canada, since on several occasions the Privy Council had found for the provinces against the Dominion's authority, thus proving a protection to the provinces.

Statler, to Send Out Plan of Wealth Conscription

A radio broadcast of the peace plan of The Christian Science Monitor, proposing an amendment to the Federal Constitution to conscript property as well as men in the event of war, will be sent from station WGR, Hotel Statler, Buffalo, N. Y., next Monday evening, according to a message re-

evening, according to a ceived in Boston today,
Mrs. Grace S. Voorhees will read the text of the plan in addition to comments by internationalists of distinction, which will emphasize the vital seriousness with which the peo-Alabama Plan Called Distinction ple, of the world are regarding the efforts now being made to establish peace on a permanent foundation.

for securing convict labor in the coal mines is being called by opponents to the convict lease system.

The program will begin at 8:30 p.m., and if it meets with the favor anticipated, the manager of WGR has promised that he will devote another evening to a radio discussion of the Gov. W. W. Brandon, Hugh Morrow,

Monitor proposal.

Inasmuch as the WGR wave is vice-president of the Sloss-Sheffield heard distinctly in London, Eng., and at other points equally far from Buffalo, the Monitor plan, and the favorable opinions which it has elicited from leaders in all walks of life, will Coal & Iron Company, and others have worked out a plan whereby the mines are being leased to the State, and which is said to relieve the coal be heard simultaneously in thousands of homes throughout the United States mining companies of what they had in the way of responsibilities to convicts and their families. Whether the last and elsewhere.

That interest in the Monitor Peace Plan has been keen in the city of Buffalo is evident in an editorial which statement is true or not is still prob-lematical since the plan has not been divulged, and it is understood will not be divulged until it is put in working order. The following facts have been unofficially announced concerning the appeared in the issue of Jan. 30 of the Buffalo Evening Times. The edi-torial, under the caption, "Attention Mr. Bok!" reads as follows:

The first places where the change will take place will be Bell Eilen, in Bibb County, and at Flat Top, in Jefferson, according to the reports from Montgomery. The State will mine the coal and dump in on railroad cars at a stipulated price.

The companies owning the mines will be represented only at the mines by engineers and men to weigh this coal. The State will have absolute control of the convicts, inside and outside of the mines. All tasks and all care of the convicts will be directly in charge of the State, and no company will have anything to say as to the working of the men.

Nothing has been given out in Birmingham, but it is asserted that the plans have been completed and will be put into execution immediately.

torial, under the caption, "Attention. Mr. Bok!" reads as follows:

Mr. Edward W. Bok will surely be interested in the fact that The Christian Science Monitor of Boston has evolved a significant plan for the abc-lition of war so far as America is concerned. We have not before us the full details of The Christian Science Monitor's plan, but enough is set in the following paragraph. clipped from an esteemed contemporary, to show that the Monitor has at least blazed the way with an idea susceptible of additional suggestions and conducive to thought.

"To the end that war may be made as repellent to all classes as it is to those who must fight. The Christian Science Monitor has proposed an amendment to the Constitution of the United States, expressed in substance as follows: In the event of a declaration of war, the property, equally with the persons, lives, and liberties of all citizens, shall be subject to conscription for the defense of the Nation, and it shall be the duty of the President to propose, and of Congress to enact, the legislation necessary to give effect to this amendment."

If congressmen knew their salaries

If congressmen knew their salaries If congressmen knew their salaries were to be conscripted in the event of war, that body would be stampede-proof against war propaganda. The amendment proposed by The Christian Science Monitor would have no need of relying on the conservanced of capital. The congressional salary would alone act as a stabilizer of all debates.

salary would alone act as a stabilizer of all debates.

Whether this thought occurred to our esteemed Boston contemporary, we are not informed, but if it didn't, then, as Emerson said of Michael Angelo, the Monitor has "builded better than it knew."

the Commonwealth and Port of Bos-ton will grow more logical and the appeal to public opinion more popu-lar and potent." On the subject of the building de-partment the Mayor said an active MEMORIAL DRIVE **EXTENSION SOUGHT**

EXPERTS HAVE PLAN FOR GERMAN BANK

Details Handed to Dr. Schacht-Dr. Stresemann Demands Return of Sovereignty

By Special Cable

BERLIN, Feb. 4—Dr.-Guatav Stressmann, German Foreign Minister, in a speech before the German People's Party at Stettin yeaterday declared, with regard to the work of expert committees in Berlin that a solution of the reparations problem would be impossible as long as Germany had not regained its sovereignty in the occupied districts, and as long as it did not run its own railways in those districts—in other words, as long as the Rhinuland and the Ruhr were not free. Moreover no German Government, he continued, would permit any reparations being paid as long as Germany remained split up in this manner. By Special Cubic

The Foreign Minister furthermore said that he did not believe that the present was the right time for Germany to make any proposals, but it would await those of the expert committees which it would then duly scrutinize.

Bafareles

Referring to the report of Woodrow Wilson's passing away, Dr. Stresemann said that this event recalled "the illusion of the Wilson peace," and added that the ideals of the late President had become the "disaster of Germany."

The expert committees resume work today which was suspended over Sunday. •Before they adjourned on Saturday they handed to Dr. Hjalmar Schacht, president of the Reichsbank, a plan of their own for the establishment of the coming German gold-note bank, the details of which, however, are being kept ways and this amount beautiful secret.

are contributing monthly from their, own stocks two and a half times the amount of foodstuffs sent from abroad by foreign relief organizations. General Dawes, chairman of the first eral Dawes, chairman of the first committee, also paid a visit to the children's hospital and the public schools in one of the labor quarters to see the conditions for himself.

The manner in which the New Year

celebrations by wealthy Germans. eve celebrations by wealthy Germans, and foreigners in German hotel cafes were exploited for anti-German propaganda in other countries has had a deterrent effect on what little social activity is here these days. A big charity ball which had been planned to take place at the Esplenada on Saturday was cancelled, because of another the second of the second of the second of another the second of to take place at the Esplenada on Sat-urday was cancelled, because of ap-prehension that the experts would be called on to view it as a proof of Germany's ability to pay all the rep-arations demanded. Furthermore an art school was only permitted to have a private dance on condition that the festivity should cease by 2 o'clock.

BILLS TO EXTEND COST BOARD HEARD

Four Measures Are Before Legislative Committee

Four bills, each for the purpose of extending beyond May 1 of this year-the life of the "Commission on the Necessaries of Life," but each providing for a different term, one for an indefinite period, one for three years, one for five, and the other perma-

effect the existence of such a body has

had upon those who would place personal profit before public interest."
Senator Abbott B. Rice of Newton,
chairman of the committee, asked Mr.
Merrick if it would be wise to give the
commission power to enforce its decisions, and cited the control of the Department of Public Utilities over the
price of gas, electricity, and transportation. Mr. Merrick said he would
not so far extend the commission's not so far extend the commission's powers, and continued:

"We thought it necessary to grant companies selling gas and electricity monopolies. In order to safeguard ourselves we have had to see that they charge reasonable prices. I do not think, however, that this principle of guardianship should be extended. The more we do so, the less able are the people to take care of themselves. All this commission should be given power to do is to educate the public. It should tell people where articles can be bought cheaply, and what concerns are charging exorbitant prices. Then it is up to the people to use their intelligence. If they insist on buying from robbers, they should suffer. Competition, governed by a well-inforactipublic opinion, should be the force fixing prices."

will be held in two Massachusetts and one Rhode Island city in addition to Providence, which is a distinct to a students who wish to follow the series there will and the lectures in Fall River and Attileboro and Woonsocket. The course is under the direction of Prof. Alfred E. Stearns of Phillips Andover Academy. Prof. Alfred E. Stearns of Phillips Andover Academy. Prof. George D. Strayer to do is to educate the public. of Russian delegates on Swiss soil, in view of the fact that Conradi, who shot Vorovsky, the Soviet emissary, at the Lausanne conference had been acquitted by the Swiss courts.

The reason alleged for holding the conference in Rome, bowever, is that the Italian delegates found that they could not leave their capital on the date fixed for conference, which is now expected to be attended, not only by Argentine, Chile, Denmark, Greece, Norway and Holland, which are members of the League, but by two states which are not, namely Russia and Turkey. The League's permanent advisory commission on naval disarmament which will also participate in the proceedings, includes delegates from Brasil, Spain, France, Great Britain, Italy, Japan and Switzerland, so that practically all the naval powers in the world and some others except the United States will be represented.

It is hoped that the experts' constitution and the service of the conference of the conference of the united States will be represented.

It is hoped that the experts' constitution and the service of the conference of the conference of the united states will be represented.

sented.
It is hoped that the experts' conference at Rome will be followed by a general international conference on the limitation of naval armaments to which all the powers, including those which have no navy, would be

CALIFORNIA TO CURB HIGHWAYS' WASTE

SAN FRANCISCO, Calif., Feb. 4eliminate "pork barrel" road building and give California the maximum of utility and efficiency in a public high-way system, Friend W. Richardson, Governor, has announced the appointment of a state highway advisory com-mittee of engineers and others, as required of him by legislative enact-ment. The committee is to submit its findings in a survey report to the 1925 as yet unable to foresee far enough

strictly secret.

Several members of the committees have visited the poorer districts of Berlin in order to make sure that the Germans themselves were doing their share in bringing relief to their destitute countrymen. According to Cyrus Keene, the Berlin representative of the American committee for the relief of German children, whom they also saw, the German farmers are contributing monthly from their amount has been expended or contracted for," says Mr. Richardson. "By acts of the Legislature the highway system now comprises 6400 miles of this has been paved and less than 4000° miles has been graded. The state highway engineer estimates that it will require \$200,000,000 to complete the state highway system, as it is now exists, and in according to the construction of highways.

ent traffic." He continued:

Hundreds of miles of highways have been voted into the state highway system by legislatures with little thought or consideration as to whether these are necessary roads or not. Many of these roads are, in fact, purely and simply pork barrel roads which never should have been in the highway system. The committee I have appointed will, I hope, have the courage to investigate the problem

have appointed will, I nope, have the courage to investigate the problem thoroughly and decide what roads should be in the state highway system and what roads should not be.

I have appointed a committee of citizens who will serve the State without compensation and whose report should have great weight with the records.

Personnel of the committee includes John B. Gill. San Bernardino, for merly county highway commissioner George G. Radcliff, chairman of the state board of control, and Robert M. Morton, state highway engineer.

WASHINGTON, Feb. 4—At a con-terence Saturday night of insurgent senators and representatives from the Republican, Democratic and Farmer-Labor, parties, these questions were

Conservation as an Issue

Every politician knows that con-servation is once more going to be servation is once more going to be one of the major issues in the presidential campaign, as it was in 1912, following the Ballinger episode. Regular Republican leaders realize that their party is perforce put on the defensive. They do not think, however, that anything that has occurred has made President Coolidge less available for the nomination. On the contrary, in their opinion, he has strengthened his position as the leader of a regenerated Republican Party by the vigorous determination he has shown to foreclose the un-savory oil contracts and to punish those who have been guilty of wrong-

the other hand there are many Republicans here, not so much of the inner circle, but nevertheless influ-ential, who hold that with conservation almost bound to be the major issue, the Republican Party should choose a man whose record on that issue stands above question. These Republicans are more and more bringing the name of Gifford Pinchot

It would not be a surprise to some of those who have been following the Presidential fortunes of Hiram W. Johnson (R.), Senator from California, if, in the next few days he should retire from the race. He has been saying some pessimistic things about the prospects of his candidacy during the last few days, and now he has gone to Chicago to consult his cam-paign managers and chief financial backer. Some of his recent remarks WORCESTER, Mass. Feb. 4 (Special)—Degrees were awarded and an address made by Dr. Frederick J. nomination as a plum to be too highly

ASIATICS' EXCLUSION ASKED

ASIATICS' EXCLUSION ASKED
CHILLIWACK, B. C., Jan. 25 (Special Correspondence) — A resolution asking for the exclusion of Asiatics from British Columbia was adopted at the annual meeting of the British Columbia Fruit Growers Association held here. The Dominion Government was also requested to make a survey of all Orientals in the Province, and their occupations. Inquiries of this nature in the past have been confined to Asiatics in agricultural occupations, and it was thought that if the scope of the inquiry was widened, to show that almost every industry in the Province is being affected, there would be more general support given to the exclusion movement.

TO ASSIST DOCKERS

By Cable from Monitor Bureau LONDON, Feb. 4-Support for the vater front workers, members of the Transport and General Workers' inion and National Stevedores, Lightermen, Bargemen and Dockers' Union, who have threatened to strike for higher pay, has come from the National Union of Railwaymen. This gives the strike threatened by the water front workers a more serious aspect than it has had before, and in-sures moral, physical and financial support from one of the largest labor organizations in Great Britain to the dock workers, both in its negotiations with the steamship interests and in the strike should the men come out as they threatened to do, unless they obtain a minimum wage increase of

of organization and limitation of authority.

Miss Leslie Hopkinson of Cambridge will act as executive chairman of the group and Mrs. Martha Helen Elliott as government efficiency chairman for leagues throughout the State.

Preliminary arrangements are to be completed shortly. Meantime local leagues are expected to take the lead in calling together local organizations taking part in the campaign.

The first step will be to increase the number of registered voters. A rough estimate made by the Massachusetts league shows that less than one-half of the enfranchised citizens, men and women, are registered for voting.

ASIATICS EXCLUSION Asymptotic properties of the National State and Campaign and the Matter and Shaw asymptotic present wage struggle, and, further that all the members of the National State all the members of the National State and Campaign and the Shaw asymptotic propert that all the members of the National State and Campaign and 2s. a day.

The decision of the National Union present wage struggle, and, further, that all the members of the National Union coming under the Shaw agreement would cease work simultane with the members of the Trans and General Workers' Union way of parenthesis, it should be said that the members of the National Union of Railwaymen coming under the Shaw agreement are workers on

At this time it is too early to forecast the decision which may be arrived at. In informed circles, however, it is believed that should the representatives of the men and steamship inter-

ests fail to reach an agreement, efforts will be made both by the Government and the steamship companies to have the controversy referred to a court of arbitration. All the indications are that every effort will be made by the Government to reach a settlement without a recourse by the men to the strike weapon.

German Strikers Fined

By Cable from Monitor Bureau LONDON, Feb. 4-Instructions given by the British trades-unions concerned are that, pending the negotiations on the wage rates of German now proposed by the authorities go crews on ships in British ports, no derman ships will be loaded, discharged or bunkered in British ports. The National Sailors' and Firemen's those who have gained fame on the

that the crews of two German vessels on their arrival at Flensburg from a British port were arrested for mutiny, while on strike in England, and were committed to prison. Later they were fined 100 gold marks each. The state prosecutor stated that he was legally compelled to take this action against the strikers, irrespective of whether the shipowners desire it.

SPAIN SATISFIED WITH MODIFICATION OF TANGIER DETAILS

UNIVERSITY PLANS TO HONOR SCHOLARS

Michigan Will Give Public Recognition to Those Who Attain High Standing

ANN ARBOR, Feb. 4-Students in the University of Michigan who gain distinction in their studies will be honored by the entire campus, if plans Union is supported by the Transport and General Workers' Union and its affiliated bodies.

News has been received from Berlin plan this neglect will no longer dents who bring scholastic honor to the university. Under the proposed apparent.

apparent.

It is proposed that there be held annually early in spring a special convocation to be called the honors convocation. The purpose of the pl.in, it is said, is to give "public recognition in the manner hereinafter indicated to those students who have been elected to membership in societies or ap-pointed or elected to positions where scholarship is a primary qualification."
The plan has met with the hearty approval of President Marion L. Burton and the members of the faculty, who have long been of the impression that more attention should be given to those who get the most out of their college life by conscientious study. The convocation will be an annual affair and will be held this year early in May, according to present plans.

FIGHT WAGED AGAINST AMERICAN MARGARINE

VICTORIA B C Jan 26 (Special Correspondence)-Dairymen of British Columbia, at their convention here this week, started a campaign to keep American oleomargarine out of Canada. American manufacturers of oleomar-garine are planning vigorous measures to secure a market in Canada, A. W. Neill, Member of Parliament for Alberni Neill, Member of Parliament for Albernitold the dairymen. He warned them to do everything in their power to prevent the American product replacing butter in the Canadian market. "Prohibition of the importation of oleomargarine into Canada is vital to the future of our dairying industry," he declared. If oleomargarine secured a foothold in this country, he warned, it would be difficult to dislodge it.

MR. WILSON'S CAREER MARKED BY HIGH POLITICAL IDEALS; ROUTED PARTY DICTATORS

Upon his graduation from the latter institution he studied law in the University of Virginia, and practiced it in Atlanta. Feeling that he could do more for law than the practice of it could do for him he scool down his professed best friends, some of his professed best friends, some of his professed best Atlanta. Feeling that he could do more for law than the practice of it could do for him, he took down his "shingle," bade adieu to the profession, and entered Johns Hopkins University, where, during the next two might. years, his time was divided between political economy, history and juris-

Here he took his Ph.D. degree, submitting as his thesis his book on "Congressional Government," published in 1885, and now included in his collected works. He taught law and then at Weslevan, in Connecticut, this being the period in which he may be said to have been getting his general bearings, and his ap-pointment as professor of political economy and jurisprudence at Prince-ton followed almost as a matter of So also did his appointment to the newly established and separate chair of jurisprudence and politics.

From his father he had learned in childhood the value of clear, concise and compact thinking. The modest Presbyterian minister took pains to impress frequently upon his son Woodrow the necessity of avoiding

loose and slovenly thinking.

It is something to keep in sight while Woodrow Wilson was teaching, or managing the teaching force, at Princeton, he was searching in every corner of the university library and other book collections for begingings and fundamentals of and about things that had been handled superficially by others. He went to roots for knowledge of the subjects upon which he talked and wrote, and this is why he has been able to deal with them at once so thoroughly, so fairly and so conclusively.

Takes Princeton's Reins

His teachings and his writings were having an influence beyond Pri when, in 1902, he was elected to the presidency of that institution, the first layman to occupy this position, and the first graduate of Princeton to be elevated to it in 34 years. He lost no time in overturning traditions that had long been distasteful to him and to other educators of advanced opin-

'He came into office," said a Princeton University historian, writing about the time of his induction, "with emphatic convictions about the obligations of an American university, and Woodrow Wilson "showed his hand" of Princeton in particular, to his students, and to the country."

Argument was always Woodrow Wilson's strongest weapon. Whether dealing with university trustees, would-be domineering political managers, stubborn congressmen, or representatives of foreign governments, he employed it with equal success. He was so thoroughly educated, so

philosophy of American education had foreign complications. found followers outside as well as inside the walls. In enunciating it, its author had gone beyond the environment of the university into the wide domain of democratic citizenship and republican government. At-It must do for the government of a municipality, a state or a nation what it was doing or had done for the government of a university. The plain people of New Jersey, regardless of what big business and some of the big newspapers thought or said, and regardless of what the big machine politicians of the Democratic Party might secretly do to prevent it, were bent upon making him Governor of the

State. They did.

Big business felt fairly comfortable in the prospect of controlling him when he was once planted at Trenton. His eyes would then be open to the real situation. If successful as a The fact remains, however, that it did Governor, and in the event of his not do so. President Wilson, with popularity continuing, all the probabilities favored his nomination for the presidency in 1912.

His Political Coaching

The great start, as everybody knows, was given him. He ran like a deer. The big interests and the bosses vied with each other in efforts to show how delighted they were over his victory. In due time after his nomination both began to "groom" him for the presi-dential race. They gave him friendly

hints as to the politic thing to do. His unresponsiveness caused alarm, Now throughout all that interest ing period immediately preceding the holding of the Democratic National Convention in Baltimore, when it had become apparent that the contest for the presidential nomination would lie between Champ Clark of Missouri and Woodrow Wilson of New Jersey, as was confirmed by subsequent develop-ments, no man in America knew better what he was talking about, or bet-ter what he was doing, than the for-mer president of Princeton, and few men in political history have dis-

it, or how delicately they might have hinted at their expectations, were counting upon making him, to a de-gree, their tool in the event of his election to the chief magistracy. They were influential, they were powerful, they had, unquestionably taken a great interest in his political advancement, but they were engaged in frying their own fat and to go any farther with them, intimate as had been his association with them so far, been his association with them so tar, and great as was his personal liking for some of them, would be to surren-der his independence, barter his self-respect and to discount, if not to utshould properly result from victory at the polls

A Sample of Frankness

In the history of American politics there is not another episode that parallels the parting of the ways between Governor Wilson and some of those his sponsors and supporters for the presidency. Suspecting a change in his attitude toward them, they asked he desired a continuance of their political friendship, and he told them, For the moment, his reply seemed to shock the country, so ungrateful and so cold it seemed, but as the public saw more clearly what it meant, and what it must have cost in political risk and personal sacrifice to write it. sprang to his side.

Soon a very great section of the American people saw in the Governor of New Jersey a man who would and justice for all peoples involved in rather be independent of obligations the war, leading the Nation to see lic life than win the presidency by basis of anything less than these con-

completely from all entangling financial, industrial and commercial alli-ances that won over William Jennings the championship, of his candidacy, and it was first the support, and then the championship, of William Jennings Bryan that won for him his first nomination. From the moment that to the interests, the interests fought him by the employment of every agency within their power, but Mr. Whether Bryan proved more than a match for trustees, their ablest representatives in the convention and in the campaign, with results that are historical and fresh in the memory of millions.

President Wilson's early state papers are no less important historically well grounded in general knowledge, than those he prepared later, when the and so well taught in ethics and law country, reflecting world conditions, that he usually, if not invariably, cor-nered his opponents.

and for a time by conflicting policies He silenced opposition at Prince- and sympathies. With the war came ton, liberalized and democratized the to him questions such as never before entire establishment, and provided it confronted an American executive. It with a new and a strong appeal to was no simple matter to gauge the entiment. The public, by the sentiment of the country in the early way, had been more closely observant days of the conflict, or to adjust to it of what was going on in the institu-tion than either its trustees or its president suspected. The Wilsonian able rule to hold itself aloof from

His Duty to Nation

The traditions of the United States demanded that the country should be neutral, and in conformity to those traditions, much as he may have disship and republican government. At the president reit bound to declare for neutrality and to order the possibility of applying the Wilsonian philosophy of education to the sonian philosophy of education to the sonian philosophy of education to the sonian philosophy of education to the country. that neutrality would operate onesidedly, since Great Britain ruled the ocean, and it must have been made clear to him by the manner in which news of seizures of neutral vessels by British warships was taken, that country at heart was with the Allies and that in time, if the conflict continued, it would be with the Allies in

Miles of newspaper copy, have been written in theorizing over what might have happened had the United States plunged into the war upon the inva-sion of Belgium, upon the torpedoing of the Lusitania, and under other act of provocation, previous to April, 1917. many other things, had a Mexican problem on his hands. Money was flowing into the United States from abroad. Business for a long time was more than content to let this condition continue. There was, it is true, an earnest war party; it is true, also, that there was a noisy anti-war party. The Chief Magistrate could not be certain that the country would go with him if he should go beyond the point of warning Germany that she was ex-hausting the nation's patience by continuing her U-boat policy.

dorsement of his policy by the country, had to learn in other ways to know positively that the time -was

The Final Decision

When, after his second inauguration all doubt had vanished, he called an extraordinary session of Congress, delivered his momentous address setting forth the provocation, and carried the national Legislature

which the country threw itself into the mobilization of its resources and its industries. His appeals to the people aroused them to the need for vastly increased production, and reconciled them to the inconveniences incident to the conservation of food. He pro-

export of necessary articles to any of 56 countries and their dependencies. His influence placed food control in that he state frankly whether or not the hands of a single food dictator. porters against the making of money out of the war, against waste, against

the work of the draft, spoke the na-tional word of courage and cheer to Conference had been apport thousands of new admirers and friends; the great work of taking up the Lib-

peace by the fundamentals of liberty and justice for all peoples involved in clearly that a peace secured on the siderations would be futile because It was this decision to cut loose transitory. Not the ambitions of one the faith of all the peoples involved, was the true basis for an enduring Bryan to the support, and finally, to peace; and only such a peace could be entertained by the United States.

Found Key to Unification

In the process of exposing the German idea, the President found the key to unification of American war effort. As he found his leadership widely acceptable, he used it to predden increases in taxation necessitated by the war; he ventured boldly to foster a program of broader conces-sions to Laber than the country had consider seriously. In the prohibition by proclamation the President doubtless was animated by a purpose to conserve the food supply, yet his tion contributed to minimize the retarding effects of liquor-drinking on industrial production, and virtually made the whole country dry six months before constitutional pro-

hibition could become effective clared, and the President made ready to represent his country at the European Peace Conference, the partisan bitterness incidental to the congressional elections was accentuated by his attitude toward the Republican-controlled Senate. His decision to go in person to Paris, and his policy of aloofness with respect to the upper branch of the national Legislature. became the basis for a discussion which overshadowed even the pro-spective negotiations. There was evidence of bitter feeling on the part of the Senate and all who held that its siderations, and partisan rancor, the constitutional authority with respect to treaties warranted the President in taking the body into his confidence in advance of his participation in the negotiations. The apparent acqui-escence in the 14 points that had been general throughout the year up to the signing of the armistice was now superseded by rancorous opposition on the part of anti-Administration elements. The public mind was in a turmoil as the President departed on his epochal voyage.

Cheered by Great Throngs Popular acclaim followed President Wilson's landing in France. Wher-ever he appeared he was cheered by great throngs with an enthusiasm that

presence was valued by those having

Throughout 1915 and 1916, even through the presidential campaign of the latter year, while antagonism popular demonstrations, also, in Great toward Germany was rapidly growing among the people, there was still no well-defined expression of popular feeling in favor of entering into war against the Central Powers.

Before it became clear beyond cavil that nothing short of hostile action would do, President Wilson, patiently waiting for his cue, had to pass through a period of division in his Cabinet, had to dictate and authorize several resonant notes of protest and warning to Berlin, had to test out sentiment of press and public in all quarters are a fantastic than a collegate were inclined to regard the league plan rather as a fantastic than a collegate were inclined to regard the league plan rather as a fantastic than as either a difference of the United States, speaking the United States, speaking and the United States, speaking the Unite league plan rather as a fantastic possibility than as either a desirability or a necessity. Not even the general acceptance of

the 14 points, one of which forecast the league idea, had spread a clear notion of what such a league must mean with relation to the peace. President sensus that the league should become the foundation, instead of and maintained three servants and the culmination, of the peace agree- car. ments. This decision indicated the and the whole American people with him into the conflict.

If anything had been needed to show that his action had the full support of the people, the testimony would have been available in the energy with result, and he received able assistance from Lord Robert Cecil of England. Leon Bourgeois of France, and Gen. Jan Smuts of South Africa. While this establishment of the league idea, however, was hailed with enthuslasm in liberal circles all over the world, the general belief outside Paris rested in the league as advisable and desirable rather than necessary. About this time, also, in some quar-ters, notably in the United States there was some disposition to regard He appealed to the reason of his sup- the time spent upon the league as delaying the framing of the treaties and postponing the settlement inopportunely. Amongst the delegates, too. His proclamations materially aided those serving on the commissions among which the work of the Peace the soldiers and sailors as they went there was for some time a feeling that cess the work of the League of Nations com-Lib-mission had little relation to the practical solution of treaty problem the work of the conference proceeded however, this feeling changed. The increasing difficulty of righting old wrongs without creating new causes ing out justice without falling short of reconciliation, raised doubts as to the ability of the conference to agree to keep the world out of war, even if Mrs. Wilson had a fortune of her own

League the Way Out

In this situation the league was disvided the necessary elasticity in the right under which the existing differ-Almost before the conference pare the popular mind to accept the aware of the fact, the league plan, at first merely advisable in the eyes of many, had disclosed itself as absolutely essential.

In the consciousness of a great idea realized, then, President Wilson, leaving Europe, returned to America to find public ful. The The attitude taken by the Senwas even more bitter than it had been at the time of his departure for Europe. He was criti-cized for delaying to lay the text of the treaty before it, for its consideration and approval. As discussion continued, anti-Administration forces made a strong stand for changes in the terms of the treaty, looking to safeguard American, interests that were held to be endangered notably of the United States from all European interference or control, and immunity from war over purely European disputes. There was objection because the League of Nations had been incorporated in the treaty; an extreme view was that the United States might well reject the whole agreement and make

a separate peace with Germany. Though obviously this opposition situation was not without suspicion of anti-American fomentation, at least play into the hands of the ultra-radi-The President, therefore, went on a tour of the central and western

aucceeded, and his mignty control tion to the preservation of civilization will be held in most grateful remembrance. His matchess power of statement set the tremendous is sues involved in such plain terms that all understood. The country is the better for the ideals to which he have control to the state of the ideals to which he that all understood. The country is the better for the ideals to which he gave happy expression. He gave his life in the service of the people who honored him living, and who will hold his memory in highest honor. Edward A. Filene, advocate of international peace: Woodrow Wilson voiced the great ideals of the new order—that international law and cooperation must be substituted for national antagonism and war. He gave to the world a plan to make horrors of war impossible and the people of the world accepted his leadership. But his own country was not willing to follow him. And yet there is no other road to lasting peace. There is no substitute for war but international law—no substitute for the international court and the association of nations needed to support it.

Pr. Lemuel H. Marila, president of Boaton International meded to support it.

their purpose until it was won. He succeeded, and his mighty contribution to the preservation of civiliza-

of nations needed to support it.

Dr. Lemuel H. Murlin, president of Boaton University: Mr. Wilson was a high-minded scholar, a loyal American, a world figure in a time of great stress and significance, who led the people to a greater vision of their duty and voiced their hopes and feelings in such exalted phrase and forceful logic as to arouse in them eager and determined action in World-War service to end war.

Dr. Samuel Wesley Strates

World-War service to end war.

Dr. Samuel Wesley Stratton, president of Massachusetts Institute of Technology: I served under him during his entire term of office, as director of the Bureau of Standards of the Department of Commerce. He was much interested in the work of the bureau, and made every effort to promote the scientific work of the Government.

EUROPE UNSTINTED IN PRAISE OF WORK OF WOODROW WILSON

Press and Public Alike Voice Gratitude for His Efforts to Bring Peace and Order to World

Europe with one accord voices its gratitude for the unselfish efforts of President Wilson to lead the strife-torn continent on to the path of peace. The press and public alike are unstituted in their praise of his work, his singleness of purpose and his devotion to his ideals.

Ru Cable from Monitor Bureau LONDON, Feb. 4—All newspapers figures of American democracy. Evers index pay tribute to the memory erywhere public men and newspapers LONDON, Feb. 4—All newspapers here today pay tribute to the memory of Woodrow Wilson. Though there are some which take the view that his career was a tragic failure, surprisingly many are of opinion that it was not Mr. Wilson who failed, but those with whom he had to do.

The Manchester Guardian, for example, saya:

ample, says: At the crisis in human civilization he was the man who told mankind most truly and clearly the right way and the wropg, and already most of those, at any rate in Europe, who passed him aside can see now he knew better than they and was a better man.

better man.

The Daily News, too, says:

The new conception of a universal league of peace which Mr. Wilson was the first to force on the world's unwilling gaze will remain as a lasting monument to his memory.

He stood head and shoulders above all other rulers of our time as the one man who saw clearly the light of truth in a world of false, menacing relations, and who had the courage to transform his vision into the single dominating policy of life.

Even the Morning Post, which has

Even the Morning Post, which has often in the past frankly criticized the League of Nations, which the world owes chiefly to Mr. Wilson, declares: His dreams were splendid and he takes a sure place among the illustrious men who have molded the destinies of America.

At the sam: time the Morning Post regrets that though Mr. Wilson could inspire he could not co-operate-co-

a different view. It says:

He failed because he compromised his ideals. Nevertheless, his ideals remain. Time is proving him right in his ideals, even while it unfolds the sequel to their abandonment through sequel to their abandonment through the compromise be accepted. Mr. Wilson's work has not ended in Paris. There are hands to carry it on. There is a driving compulsion behind it... history will henor the man who gave the world a new conception of its changed self and a new conscience in international affairs.

conscience in international affairs.

The Times does not think Mr.

Wilson ultimately will be reckoned among great American statesmen, though admitting he "may claim to have accomplished more for open diplomacy than any other single man." Because it was due to him that all international treaties signed by the members of the League must be registered at the League secre-tariat before they become binding. and this does away with the validity of secret treaties.

The Daily Telegraph thinks he "fatally compromised his policy by refusing to admit any but the members of his own political party to membership in the American delegation to Paris." But nevertheless, it admits "He played at the supreme hour of the world's history a noble hour of the world's history a noble came to London in 1918. He did not part, and in his errors there is no care much for him during the early failure of honor, courage, utter devo- days of their acquaintance, but he

France Salutes Mr. Wilson as Great Man Who Saved Country at a Critical Hour

PARIS, Feb. 4—The passing of Woodrow Wilson brings forth the most sincere expressions of appreciation from France. France was a pioneer in the idea of a League of Nations and cannot but be grateful to its American founder. Unfortunately the passions engendered since the war have divided opinion as to the By Special Cable war have divided opinion as to the utility of the actual organization at Geneva. Some so-called realists prefer to rely on the supposed strength of France and are opposed at present to what is described as idealism. But while there may be dispute about his while there may be dispute about his principal work, France salutes in Mr. Wilson the great and good man who saved France at a critical hour and endeavored to build nobly on the runs of the war.

Paul Painlevé recalls today how. when the result of the war was in the balance, he told Mr. Wilson that 1,000,000 men would be needed in less than a year. Mr. Wilson replied that he should have them, and made good his word.

Raymond Poincaré declares that Raymond Poincare dectares that France will not forget that it was under Mr. Wilson's presidency that the United States accomplished won-ders toward saving the liberties of the ders toward saving the liberties of the world and safeguarding the future of civilization. The Premier paid a tribute to the lofty and generous thought which inspired Mr. Wilson, who was passionately enamored of ideals, which he couched in the noblest language. M. Poincaré also recalled the remarkable welcome Mr. Wilson received when he arrived at the station in Paris and drove through the Champs Elysées. That welcome, at the beginning of the and drove through the Champs Elysées. That welcome, at the beginning of the Peace Conference, was perhaps the greatest any man ever had in Europe. The world was eager for new international conceptions and a fresh structure for the relations of peoples. That those hopes were disappointed was not the fault of Mr. Wilson.

The United States Ambassador, Myron T. Herrick, declared he wrought

ron T. Herrick, declared he wrought earnestly for the consummation of great ideals for the good of mankind. In individual conflicts men have sup-planted the primitive trial of battle and have substituted judicial arbitraion. Mr. Wilson strove to abolish trial by battle in international dis-putes. If he failed in the accomplish-ment he advanced the cause. Georges Clemenceau has sent a pro-

found expression of sympathy, stating that when on his recent tour of Amer-ica he mentioned the name of Wilson it encountered respect and gratitude for the noble part he played. He

would remain one of the most noble

Woodrow Wilson Will Become One of Great Figures in History,

are paying tribute to the saviour of France who tried to bring the world

nearer to his great ideals and who afterwards was misunderstood.

Declares Mr. Lloyd George CHURT, SURREY, England, Feb. 4
(AP)—At his new country home here, high up in the Surrey Hills, David Liloyd George, Great Britain's war Prime Minister, yesterday heard from the correspondent of the Associated Press the news of the passing of Mr. Wilson, and Minister war Prime Minister, yesterday heard from the correspondent of the passing of Mr. Wilson, sacrificed himself in a world call was a man of high ideals noble aspirations.

President Millerand Cables a Message to Mrs. Wilson, sacrificed himself in a world call was a man of high ideals and himself i

Sunday tramp along the countryside. He pulled a big armchair before an open fire, called his dog to curl up at his feet, and then talked for an hour with the correspondent about the man who seemed to control the destinies of world during the days of friumph the allied armies, and afterward of the anxious moments when the statesmen labored in the Paris Conference to turn victory into peace.

Woodrow Wilson will become one of the great figures of history," was Mr. Lloyd George's tribute. "Wilson, like Lincoln and other

great idealists, has not lived to see his dreams realized. Nevertheless his work will be carried on to his own operation being the key which could alone unlock the gates of peace.

The Sunday Observer, which had a long feditorial about Mr. Wilson, takes of the country out on the road of world affairs, from which there is no turning book. glory and the permanent benefit of adversely criticize his achievements, mankind. In the national sense he led his country out on the road of world cording to the political leanings of

Here Mr. Lloyd George paused. "The tragedy of it all," the one-time Premier mused, "is that Wood-row Wilson's failing was his inability to subdue personalities—his refusal to up personal animosity.'

Continuing, he said: Continuing, he said:

If the President had been willing to sacrifice personal prejudices to obtain the general support of his people at home he could have realized his League of Nations ideals by this means, it is certain, in view of the concessions which the European powers would have made to the American desires for changes in the League plan.

desires for changes in the land plan.

But Mr. Wilson could not overcome his failing. Last year when I visited him in Washington he was still as bitter as ever against his opponents. Mr. Wilson walked on his weaker opponents—a dangerous policy for a ponents—a dangerous policy for a great man. One can trample on great men, but not little men—there are too many of them.

But, after all, Mr. Wilson was a translayed in resilitor.

But, after all, Mr. Wilson was a tenderfot in politics. Some politi-cians, after being attacked for years, become inoculated to personal criti-cisms. But Mr. Wilson never seemed to withstand political pin pricks. They hurt his proud, sensitive nature.

The former Premier told how he had first met Mr. Wilson when he first tion to his country, and to the cause of mankind."

Said that later he felt he understood Mr. Wilson's personality and was drawn to him, despite the President's lack of "common touch." which he sually found characteristic of Amer-

To the French, and to M. Clemenceau, Mr. Wilson was incomprehensible, according to Mr. Lloyd George. The American President embodied the

of the Rhineland. The documents in the case, which had been in the hands of the British Foreign Office unknown to Mr. Lloyd George, were sent to him yesterday with permission for publi-

The Prime Minister, Ramsay Mac-Donald, gave to The Associated Press the following statement:

the following statement:

I am deeply grieved to hear of the death of ex-President Wilson, and I know that the whole of the British nation shares my feelings.

Mr. Wilson had a fine vision of reason and wisdom in leading Europe to peace and security. It was "the highest for earth; too high," perhaps, and he has gone before its fulfillment. But "there will never be one lost good," and in time to come the people will look back upon him and the part he played, and generous judgment will be easy, because he will be recognized as one of the world's great ploneers. I send the sympathies of my Government to Mrs. Wilson.

Frank B. Kellogg, the American Ambassador, who was one of the few Republican senators to support President Wilson's peace policy, said:

It is with deep sorrow that I learn of the passing of Mr. Wilson. He sacrificed himself in a world cause. He was a man of high ideals and noble aspirations.

a Message to Mrs. Wilson

PARIS, Feb. 4 (A)-President Millerand today cabled Mrs. Wilson as follows: In the name of the French Nation and in my own name I associate myself with all my heart I associate myself with all my heart in the grief that has so cruelly come to you. My country will never forget the great President who played such an important part in the decision whereby the United States came to take her place beside France and her allies in the war of right against might. Humanity will cherish the memory of the generous thinker whose dearest wish was to assure forever the peace of the world.

In this morning's newspapers there are many pictures of the American war President and copious biog-raphies. Most of the commentators

André Tardieu in the Echo National

writes:

The people of France will not forget that, if Woodrow Wilson might have been mistaken in certain political aspects of the peace, he gave his whole mind, soul and will to the war. He fell fighting on the battlefield of peace for those ideas of collaboration to which the short-sighted egoisms who put the world where it now is have persisted in turning their backs.

France, after honoring him, became have persisted in turning their backs. France, after honoring him, became unjustly severe to him. When time shall have struck a just mean our country will remember that this great associate in the war was deprived of office for having wished to remain our associate in the peace.

L'Oeuvre says:

No man ever, after raising such high hopes, finally caused such deep The following is from the Petit

A great democratic citizen, who threw the irresistible force of his country into the balance of the war in our favor! It was not granted to him to realize his conceptions, but French women are mourning today, for each of whom he saved child, husband or brother: they lament him Wilson's memory France will be eter-

EXTOL MR. WILSON

"Greatest Figure of Century" Leaves Rich Heritage for Mankind, Friends Say

Special from Monitor Bureau NEW YORK, Feb. 4-Press, bar, pulpit, and public officials of New York today paid tribute to the life and achievements of Woodrow Wilson.

today paid tribute to the life and achievements of Woodrow Wilson. Notable examples follow:

The New York Times: Time and reflection are requisite to any full and formal judgment of Mr. Wilson's achievements and of his place in American history. Suffice it to say now that he rose to his greatest heights during the war with Germany. . . And by the end of the war his fame and authority had risen to a pitch throughout the world never attained by any foregoing President in his own lifetime.

The World: His influence survives, a mighty and a growing power. His ideals, only in part translated into action during his troubled life, remain as a rich heritage for his countrymen, a source of inspiration and a store of wisdom for guidance toward a finer civilization.

We deserted the League of Nations. . by a fateful combination of evil chances, a nation that is never consciously sordid, never mean, never base, was tricked into abandoning Europe to four years of war which we might have helged her to avoid, and to fiscal ruin, reacting disastrously upon us.

Brooklyn Eagle: "Mr. Wilson would

might have hence her to fiscal ruin, reacting disastrously upon us.

Brooklyn Eagle: "Mr. Wilson would have had a high place in the roster of American statesmen, even if his Presidency had not been marked by his part in a world-wide upheaval. He entered upon the greatest of all offices with an admirable record as a state Governor and a party leader. He brought to the Presidency intellectual abilities of a high order, not the least of which was a gift, cultivated by long experience as a writer, for the clear and direct exposition of the things in which he believed. It has been truly said of him that his state papers have a distinction in style which is almost unique. His services in the field of domestic reform were very great and would alone give him an indisputable claim to eminence.

Other leaders must arise to take up his work and carry it forward to success.

The New York Herald: To the

cess.

The New York Herald: To the credit of Woodrow Wiston let it be said that undoubtedly he honestly believed that his leadership, his ideals could give to Europe, to the whole world, the peace and happiness which ordinary men had failed to obtain. He returned to the United States to He returned to the United States to present a peace treaty with which the Covenant of the League of Nations was interlocked. Triumph in Europe was met by defeat at home. In that contest this country saw Mr. Wilson, perhaps not at his best, but surely in his most aggressive spirit. He was a brave man, unyielding to the end. And that was the end.

Woodrow Wilson will take up many pages in American history. He was a

man who did things. He was a man who reached out for new ideas. Traditions did not bind him in his action, yet tradition defeated him at last in what seemed to be his greatest mbition, the creation of a world gov-

last in what seemed to be his greatest ambition, the creation of a world government.

New York Americant As a representative of all of the people, President Wilson carried through the years of the war the heaviest lond ever put upon a man in this country since the days of Abraham Lincoln, Moodrow Wilson has given his life in the service of his country.

John W. Davis, former Ambassador to the Court of St. James: That history will write him down as the greatest American of his day, and one of the greatest of any day, if firmly believe. In boldness, courage, inflexible will, and fixity of purpose ha has been surpassed by none of those who have filled the presidential chair.

It fell to his lot during the great war to speak as the accredited voice of the allied world concerning the reasons for the war and the terms of peace; and it is no exaggeration to say that his words moved armies and

reasons for the war and the terms of peace; and it is no exageration to say that his words moved armies and brought empires to dust... The world will walk for many a year to come by the light of his ideas and ideals with which his name is inseparably linked. His work will live after him and his stature grow greater with the years.

Franklin D. Roosevelt, former Assistant Secretary of the Navy: Woodrow Wilson, in his life, gave mankind a new vision of pure democracy.

Dr. Henry van Dyke, former Minister to The Netherlands: His achievements put him among the great American presidents.

American presidents.

Bishop William T. Mauning of the Episcopal Church: President Wilson's great abilities made him a leading figure in every sphere of life in which he moved. His name will stand in history as the President who guided our country through the period of the World War. His great ideal was world peace, and he gave his health and life to this great cause.

Bishop Lather B. Wilson of the Methodist Church: He was a great man, who met a difficult situation as best he could. His place in American history is assured through all the years.

Alton B. Parker, Democratic nominee for Presidency in 1994; A great man has passed. True he was not perfect, but then, no man ever was. His critics will vie with his friends today in saying "He had the courage of his convictions, and he did his duty as he saw it at the time." The League of Nations will yet be deemed his supreme work.

Col. Edward M. House, long a close adviser to Mr. Wilson and a member of the Peace Commission: With Woodrow Wilson's advent to the Presidency idealism, for the first time, had its opportunity in government. That all the measures he so ably advocated did not wholly succeed, was not because they lacked merit. His efforts will surely stir another President to follow the path he had blazed. In this mighty Republic they may yet reach that lofty height to gain which Woodrow Wilson laid down his life.

WILSONIAN IDEALS PRAISED BY OFFICIALS AND NEIGHBORS

World Peace His Highest Goal-Must Take Place Among Renowned of All Ages Is Feeling of Nation

Special from Monitor Bureau

WASHINGTON, Feb. 4 - Official Washington, acquainted with Woodrow Wilson as President of the United States, and others who knew him as "Neighbor Wilson," today joined in paying tribute. Some of the testinonials follow:

William H. Taff, Chief Justice of the United States: "Mr. Wilson in the latter years of the war and in the year following the armistice was the great-est figure on the world's stage. No man in a century wielded more power and influence. He was born to con-mand with confidence and courage, mand with confidence and courage, and events gave him an opportunity to lead men not given to any other in our history. He was a man of high ideals and great force of character to pursue them. A deep student of government, a scholar of widest culture, a writer and orator of happy, apt and beautiful diction, he brought to the great place he held most exceptional faculties. He will live in the ideals he preached and sought."

Charles E. Hughes, Secretary State: "The nation has lost a great leader, of outstanding ability and character whose services will be ever memorable.

Herbert Hoover, Secretary of Commerce: "As time softens the assertites of the war, his staffire as a great leader through a great erisis in our national life, his high courage, and his inspiration to lotty action, will bring to him the high appreciation and deep gratitude of our people."

John W. Weeks, Secretary of War:
His strength of purpose, his courage and his loyalty to his ideals caused that admiration and respect which now accentuates our sorrow. He expended his strength and vitality in the sorvice of his country, and leaves as a heritage an example of public service which should ever inspire his countrymen.

R. L. Owen, Senator from Okla-

R. L. Owen. Senator from Okla-homa: His strenuous effort to serve the world has already borne tremendous fruit in America and which is destined to be more and more valua-ble. It was under his administration that the Federal Reserve Act was

that the Federal Reserve Act was established, resulting in more than doubling in America its banking power in an incredibly short time.

It was under his administration that the great Farm Loan Act was established, destined to lend millions to agriculture at lowest rates, long time with amortization. He caused the establishment of the Federal Trade Commission which will ultimately abate the evils and unfair practices of monopoly. His services to labor have been very great.

It was under him that America financed and won the World War which overthrew the great military dynasties of Germany, Austria, and

Russia, and gave the most tremendous impulse to democracy which the world had ever known.

It was under his influence that the League of Nations was established with its principles of international justice and good will, was made a living organization, and will grow into a means ultimately of preventing future war.

History will accord to Woodrow.

History will accord to Woodrow Wilson the high place to which he is entitled, and in the passing of this soldier of the common good perhaps Americans will be willing to forge the partisan antagonisms engendered

John B. Kendrick, Senator from yoming: the impression of the was that he was a man of un poiness and distant from his lows, but there was not a public man in recent years about whom more incorrect things were thought and said. He was almost the easiest man to meet that I ever knew. He was one of the most indefatigable workers

one of the most indefatigable workers. I ever came in contact with, and I never knew of anyone who carried out the duties before him with such clock-like precision and efficiency.

E. D. Smith, Senator from South Carolina: Mr. Wilson was the most outstanding and commanding figure during the years of the world's greatest war. Whatever else may be said, he has so impressed his character and his ideals upon the world that they will last as long as democracy they will last as long as democracy lasts and so long as men shall strive to obtain national accord.

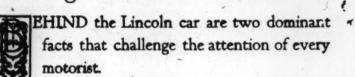

Kenneth McKellar, Senator from Tennessee: In all that pertained to economics, history, and the science of government. Mr. Wilson was easily first of all of our Presidents in all other substantial matters he had no superior. Perhaps there never-was so learned a man in the presidential chair. He was easily the one great outstandin leader in the most far-reaching an mementous World War that eve took place on the earth, and I believe that he will go down in history at the great statesman and leader of his age.

Cordell Hull, chairman of National Democratic Committee: Woodrow Wilson was one of the very few greatest Presidents and statesmen in American history. He was more than that, He was the greatest exponent at a most critical stage, of thosomoral, spiritual and civic ideals somecessary for world rehabilitation and the promotion of permanent peace everywhere. The nation and the world will look in vain for his equal as a statesman, philosopher and humanitarian. His great services will forever stand out in history. Cordell Hull, chairman of National humanitarian. His great serv will forever stand out in history.

PRESS, BAR, PULPIT EXTOL MR. WILSON

retary of State: Woodrow Wilson was and is the greatest figure of our time. Bitterly and deliberately maligned by a few, misunderstood by maligned by a few, misunderstood by some, nevertheless he compelled the admiration of the civilized world. . . . He did not triumph in his fight to make lasting peace a reality, but the battle is not lost, as his lofty idealism has left an indelible mark, and will live on in spite of temporary defeat.

Everett Colby, chairman of the executive committee of the League of Nations Nonpartisan Association: Time will enhance the reputation of Woodrow Wilson and Theodore Roose-Woodrow Wilson and Theodore Roosevelt, despite their different policies, in the same way as it vindicated Abraham Lincoln's policies to the world. Mr. Wilson's political issues are rapidly becoming shaped and fashioned as he foresaw. His policies, once accepted, will be a lasting monument to his memory.

Henry W. Taft, a brother of exPresident Taft: Mr. Wilson's project
for the League of Nations and his
participation in the framing of the
Versailles Treaty will no doubt,
assure him a lasting place in the history of the Great War. We must give
Mr. Wilson credit for uncommon imagination in dealing with great public
ouestions. If the ardor with which agination in dealing with great public questions. If the ardor with which he advocated measures had yielded more to the practical necessities of legislation, more concrete results would have stood to his credit.

would have stood to his credit.

Bernard M. Baruch, economic adviser for the American Peace Commission: The greatest figure of the century has passed, but no man of any age has left a richer, truer heritage for mankind. Woodrow Wilson's concept of the League of Nations will survive disparagement and tions will survive disparagement and attack as the true outline of the rela-tionship that must prevail among peo-

ples.

Walker D. Hines, former Director-General of Railroads: In history, Mr. Wilson will stand out as one of the greatest apostles of peace. Throughout the war his mind was on the achievements of permanent peace. Throughout the peace conference his effort was to promote the cause of peace, and history will declare that he did promote it. Mr. Wilson will stand out as the man, who, more than any other, saw the world need for peace and strove to realize that objective.

Abram I. Elkus, former Ambas-sador to Turkey: As time goes by, more and more will fe appreciate the Administration of Woodrow Wilson, and the high purposes by which all his acts were governed. He sought to perpetuate a plan by which all wars in the world would end.

Martin H. Glynn, former Governor of New York, who nominated Mr. Wilson for the presidency at St. Louis in 1916, said: Woodrow Wilson Wilson for the presidency at St.
Louis in 1916, said: Woodrow Wilson
was a wonderful combination of
knowledge and intellectuality. He
came to the President's chair from
years of historical and political
study and teaching. Information
which other men had to seek in libraries he knew by heart and this
made him ready in debate, formidable
in counsel and quick in decision.
Some Oxford don once called Lord
Acton a "storehouse" of his historical
and political knowledge. Woodrow
Wilson could be called the same.

Men may differ all they please about
the Treaty of Versailies—but this was
a composite work wherein Woodrow
Wilson was only a minority factor—
but in his individual capacity, where
he had full sway as Fresident, his-

OF WORK OF WOODROW WILSON

Wilson While Student Chopped His Own Wood

Davidson, N. C., Feb. 4

VOODROW WILSON WAS a

student at Davidson was a student at Davidson College from the fall of 1878 until just mington, N. C., where his father, a member of the board of trustees of Davidson College, was paster of the First Presbyterian Church.

During young Wilson's stay at Ravidson he chopped his own wood. pumped his own water, washed his lamps and cleaned his room in the historic Chambers Building. His average grade for the year was \$1% and his surviving classmates describe ognized leader in college, and especially versed in current polities.

cause he conceived to be for the good of his fellowmen.

NATION'S TRIBUTE TO WILSON IDEALS

(Continued from Page 1)

scene of his many triumphs, this re-markable career comes to an end. Finis J. Garrett, speaking in the

House said in part: "It is not for us now to enter upon speculation or to attempt to fix Woodrow Wilson's place in history. We could not do this if we would. History, itself, will adjust that, and

it is reasonably safe to assert that it will do so unerringly." Mrs. Maud Wood Park, presdent of the National League of Women Voters, issued the following statement:
"Woodrow Wilson will live in his-

tory as the first of our presidents to put international co-operation to pre-vent war above all other interests, national and world-wide

Figure, Says Hiram Johnson CHICAGO, Feb. 4—Hiram Johnson, speaking here of Woodrow Wilson,

"He was able, firm and courageous Whether we agreed or disagreed with his views, his unstinted and wholehearted devotion to them won the re-

spect and admiration of all.
"He was not only, as our Chief Executive, a commanding personality but in his time was a great world figure. "History will write him as one of the outstanding characters of this

Canadian Statesmen Pay Tribute OTTAWA, Feb. 3-Sir Robert Borden. Canada's war-time Premier, paid the following tribute to former President Wilson:

dent Wilson:

In the death of Mr. Wilson the world has lost the service of a great man. Strength and sincerity of his high ideals and great purpose will give him a distinguished place in the forefront of statesmen of this century. Splendid courage and remarkable tenacity characterized his attitude on every cursulate of principle.

W. L. Mackenzie King, the Premier, W. L. Mackenzie King, the Premier, in a telegram to Mrs. Wilson, said:
My colleagues in the Government of Canada join with me in extending to you an expression of every sincere sympathy in your bereavement. We feel that the citizens of our country would desire us similarly to express to the citizens of the United States our sense of the loss the Republic has sustained in the death of one whose name is inseparably associated with the world's freedom.

what strongly by the animosities still

d'Italia says:

Beyond the funeral pyre hatreds cease to exist, as the ancient proverb says. Today, therefore, since Fiume is rejoined to Italy and our dissensions with the Jugoslavs are happily resolved, we too can forget our bitterness, recalling the decisive value of the entrance of the United States in the World War.

Both King Victor Emmanuel and Pope Pius expressed their deep re-

LEAGUE HOPEGROWS AS FOUNDER PASSES

Chicagoans Declare Attention Will Be Focused on League -Wilson Ideals Lauded

Special from Monito? Bureau

CHICAGO, Feb. 4-Revivification of the League of Nations in America through the emphasis newly laid on it by the passing of Mr. Wilson is anticipated by many friends of the League here. Inquiry in this circle by the Chicago office of The Christian Science Monitor today brought the following comment:

Science Monitor today brought the following comment:
Graham Taylor, founder of the Chicago Commons and nationally known settlement worker:
Woodrow Wilson and the League of Nations have been sacrificed by partisan propaganda and spite. Instead of passing with its leader, the League issue will be reopened and undoubtedly will receive great impetus in the approaching presidential campaign.

It is my impression that United States' entrance into the League is being considered more and more favorably, possibly with minor feservations; though a referendum of the people, might be adverse at the present moment because of the partisan propaganda spread against it. If Wilson had been a Republican, partisan spite would not have been shown by the same people, and the League might have been indorsed as a Republican measure.

"League Still Lives"

But the League Still Lives'
But the League still lives in American thought, and will find strength as America develops a sadly lacking international consciousness. The Bok Peace Plan is creating League interest; the councils of foreign relations are rapidly spreading intelligence in regard to the United States and its foreign relationships; and, again, discussion of immigration policy in the present Congress will aid the people in understanding their country's relations with other peoples.

the present Congress will aid the people in understanding their country's relations with other peoples.

Charles P. Anderson, Bishop of the Episcopal diocese of Chicago, said: President Wilson was the most outstanding, world figure of this generation. He was on top of the world. Probably no other man ever rose to such a height of international eminence or had his powers so suddenly cut off. There was no other man to whom so many people and nations looked as the spokseman of the ideals and aspirations of democracy.

His name will be forever identified with the League of Nations which was an attempt, regardless of what comes of it, to apply to governments and to international relationships those Christian tenets without which wars will continue to make the human race deteriorate and threaten the collapse of our civilization. Although I did not your for President

the collapse of our civilization. Although I did not vote for President Wilson I welcome the privilege of paying my tribute to him as a great American whom future generations will desire to honor.

Fourteen Points Praised Fourteen Points Praised
Mrs. Catherine Waugh McCullough,
president of the Illinois Democratic
Women's Club, said: Because of the
14 points and his persistent urging of
the League of Nations he became the
great figure in the world. There is no
monarch, prime minister or political
leader famous 10 years ago who continues to have the hold on the
thoughts of his own people or of the
world that Mr. Wilson has continued
to hold.

to hold.

William B. Hale, lawyer and chairman of the executive committee of the Council for Foreign Relations, and organization for promoting, through open forum discussion, interest in foreign relations, said: The leadership of Woodrow Wilson

foreign relations, said:

The leadership of Woodrow Wilson and his stand for the League of Nations was such that it will never fail to have a most prominent influence on the United States' foreign policies. I rejoice that Mr. Wilson steadfastly refused to accept the Senate reservations, for had we gone into the League under such conditions we might have had to withdraw. Today we are able to go ahead toward the League goal without such obstacle.

I hope for the time when the United States may join the League, in its present or in modified form. Sentiment is stronger every day for it. The passing of Mr. Wilson should be the signal for all friends of the League to get together to promote the United States entrance, with whatever reservations may be proper.

League Sentiment Growing lingering from the controversy at Paris over Flume and the Adriatic problem in general. In concluding its comment, however, the Giornale

League Sentiment Growing

It is a vital political issue today and must come before the councils of the big political parties, for their adoption or rejection.

Horace J. Bridges of the Chicago Ethical Society said: The cause of the League of Nations has gained, rather than lost, through the possing of Woodrow Wilson. This event has forced people to see our former President in a new light. Even his enemies are now testifying to the greatmies are now testifying to the great-ness of the foremost exponent of the League. I firmly believe the success of the League is brought nearer ful-

filment by the loss of Mr. Wilson to the cause. I believe the path of the United States has been made clearer, and that its entrance is brought

Miss Ella Boynton, chairman of the Chicago branch, Women's Interna-tional League of Peace and Freedom,

said:
While I feel it a tragedy that Wilson could not see the fullfilment of his peace work in his lifetime, still, it may be that this tragedy may startle people into realizing the importance of his work. I feel that his 14 tance of his work. I feel that his 14 points are the greatest program for peace that the modern world has had and look upon the League of Nations as the most hopeful agency for peace which exists in the world today.

which exists in the world today.

James J. Forestall, lawyer and well-known friend of the League, said:
Strength should be gained by League of Nations sentiment in the United States because of the passing of the former President Wilson. All that America needs to become convinced of the successful working of his ideals as expressed in the League vinced of the successful working of his ideals as expressed in the League is to have its attention called to just what the League is accomplishing for the peace of the world. His passing will serve to bring needed attention to bear upon the League. I spent six weeks in Geneva this summer, observing the workings of the League

Would Rid League of Politics

Miss Jane Addams said: Woodrow Wilson had very unusual ability, certainly in the early part of the war, in being able to determine the ethical implications in the war situation. He formulated this in his incomparable English and then later he made it into a program of practical action in the plan of the League of Nations. I think it very unfortunate that the League became a partisan issue. It

I think it very unfortunate that the League became a partisan issue. It is hoped more and more it will be taken out of party politics, and be regarded purely on its merits, having to do only with our international re-lations, and nothing whatever with our internal differences. Miss Mary McDowell, Commis-ioner of Public Welfare of the City

sioner of Public Welfare of the City of Chicago, said:

Men may differ even bitterly concerning Mr. Wilson's methods of bringing peace on earth but they can never erase from the minds and hearts of the people of every nation his ideals. They will live on and affect both the thought and action of nations.

State Proclamation

Is Issued by Governor

In honor of Woodrow Wilson, Gov. the national and state flags be flown themselves outlawed if they declared at half-staff on "all buildings of the Commonwealth for a period of 30 the Woman's Forum there is this con days" and urged that proper cere- ment: monies be observed in schools and churches. The proclamation follows.

His was the mighty responsibility of summoning the American people to enter the greatest of wars and to hold them steadfast in their purpose unto the end. His large contribution to the preservation of civilization will be held in most grateful remembrance. The country is the better for the ideals

which he gave expression.
"In token of the love and reverence which our people bore him, I direct that the national and state flags be flown at half-staff on all the buildings of the Commonwealth for a period of 30 days, and urge that in our schools and churches his loss be marked with roper ceremony.

On behalf of the people of Massa-chusetts, Governor Cox today sent a message of condolence to Mrs. Wilson.

ENDING OF WAR SEEN IN PROPERTY DRAFT

Editorial Comment in United States Strongly Indorses Proposed Amendment

Editorial comment in newspapers n all sections of the United State continues to indorse the proposal, advanced by The Christian Science Monto provide "in the event of a declaration of war, the property, equally with the persons, lives, and liberties of all citizens shall be subject to conscription for the defense of the Nation." Some of the comments follow: The Albert Lea (Minn.) Tribune:

"When they conscript property wars are going to be few and far between. The selfish and greedy who now profit by wars will be the ones selves the letters merely recall old become a constitutional amendment The Walla Walla (Wash.) Times:

daily publication gotten out in Boston. t the best edited papers in the world, is fighting a handsome battle for the conscription of wealth as a part of the program against war. The proposal is one which cannot fail to have the indorsement of the working That The Christian Science Monitor should have pushed its program for the adoption of what it calls universal conscription to the point that has been attained can only be a matter of gratitude on the part of the masses. If they secure the fur-ther sentiment and attention for the proposal of the plan, which they believe will so greatly reduce the tend-ency to make war as to almost stamp t out, then that movement will have

proved a great boon to mankind."

The Lambertville, N. J., Record:
'The Christian Science Monitor is advocating a plan that would be more effective in stopping wars than all the leagues ever thought of. If huge profits could be cut off, manufacturers would hardly be in favor of war; is everyone had to work for a soldier wage, none of them would want to be conscripted; munitions manufact-urers would not have their agents working in foreign countries to fo-Channing H. Cox today directed that ment war, and legislators would find

> The St Joseph (Mo.) Gazette: In ment: "The proposed amendment to the National Constitution referred to in the article from The Christian Science Monitor, and the able support of it, is certainly worthy of attention and should be read in every woman's club in the country.

Unity, a religious periodical pub-lished in Chicago, declares: "The Christian Science Monitor—admirable paper—is proposing an amendment to the Constitution of the United States to the end that war may be made as repellent to all classes as it is to those who must fight. From the realistic viewpoint, as contrasted with the former idealistic viewpoint, we find much to commend in the proposal of The Monitor. Indeed, if war has to come, and men are to be seized and thrust into the trenches like cattle, or into prison if they rebel like men, we

INDUSTRIAL PEACE ADVANCE REPORTED

Connecticut Had 24 Strikes in 1923 With No Industry Scene of Extraordinary Unrest

HARTFORD, Conn., Feb. 4 (Special)

That 1923 was "a year of comparative industrial peace in Connecticut," is asserted by Connecticut Industry, the organ of the Manufacturers' Association, which announces a total of 24 industrial disputes resulting in strikes during the year with no particular in-dustry the scene of any extraordinary unrest. Three disputes each occurred in the clothing, foundry and machine shop, paper, silk and velvet, and woolen and worsted industries and two each in the cotton and shirt indus-

The statement continues:

The statement continues:

The statement continues:

This is in striking contrast to the three-year period preceding 1923, and particularly to 1920, when out of a total of \$4 disputes 44 occurred in the brass industry and 15 in foundry-and machine shops. In 1921 the trouble was concentrated chiefly in the printing and publishing industry in which there occurred 17 strikes out of a recorded total of 27 for that year.

The following year—1922—the situation in the cotton industry accounted for five disputes of the year's total of 15. The hat and the brass industries—two lines whose production in former years was seriously impeded by strikes—were singularly free from labor troubles in 1923; and in printing and publishing there was but one dispute. In addition it must be borne in mind that although the total of strikes occurring in 1923 was reaster by nine than in 1922, the

but one dispute. In addition it must be borne in mind that although the total of strikes occurring in 1923 was greater by nine than in 1922, the number of working days lost, the estimated loss in wages, and the estimated loss in production were notably lower than any other year in the four year period.

The cause of dispute in 14 cases out of a total of 24 in 1923 was a demand for an increase in wages. Bearing in mind the upward tendency in wage rates from spring until fall of last year it is natural to expect that the most fruitful source of trouble would lie in that direction. Second in rank numerically but otherwise of the first importance were the disputes arising from a demand for the closed shop, of which there were six.

Members will be interested in knowing that in none of these cases was the demand for the closed shop granted. In one instance the lack of understanding of the wage system then in force brought about a strike, while in one other plant fines for bad work deemed by the employes excessive precipitated a walkout. In the other two instances the dispute was the result of the discharge by the management of a more or less popular employes.

People's Symphony Orchestra

The People's Symphony Orchestra
The People's Symphony Orchestra
gave its twelfth concert of the season
in the St. James Theater, yesterday
afternoon. The program comprised
"Carnaval Romain" overture. Berlioz:
"Jupiter" Symphony, Mozart: "Kol
Nidrei," Bruch: auite, "Carmen." Bizet:
"Polonaise in E Major, Liszt. Rulph
Smalley, violoncellist, and a member of
the orchestra, was the assisting artist.
The gay "Carnival" overture, with
its broad, romantic melody for English
horn and vivacious, rhythmic saltarello
theme, was played with the necessary
joy and animation.

theme, was played with the necessary joy and animation.

The symphony was well performed. While the playing of the first theme of the allegro seemed to lack brilliancy and vim. the most restful passages were smooth and pleasing. In the quiet, tender second theme the strings were especially clean. In the andante, the muted smooth and pleasing. In the quiet, tender second theme the strings were especially clean. In the andante, the muted strings, with their exquisite melody, and later the bassoons and oboes if a theme of contentment, were effective. But in the thematic development that followed the orchestra did not ring clear. The minuet was light and free, and the performers were at home with its gay and fresh themes. In the finale, though the orchestra found the intricate contrapuntal development somewhat difficult and the unison was not always perfect, yet the performance instanced clearly the steady improvement the People's Symphony is making toward tone.

Music in Boston

"Boris Godounof" The Chicago Civic Opera Company resented "Boris Godounoff" at the oston Opera House Saturday after-oon, with this-cast;

The Bolard Krusctcloff Giuseppe Minerva The Bolard Krusctcloff Giuseppe Minerva The Inn Keeper Alice D'Hermanoy Conductor, Giorgio Polacco

At long last Boston has seen and heard Challapin as Boris, and Boston, as represented by the large audience of Saturday, subscribes to the general verdict of the greatness of the impersonation. The compelling quality of his work seemed Saturday to lie in his acting rather than in his singing, which confirms the impresent singing, which confirms the impres-sion given by him in recital. His voice is of good quality and flexibility, but of itself it would hardly place him at the head of singing actors. As for his histrionic ability, one can but say at the head of singing actors. As for his histrionic ability, one can but say that it has the supreme touch possessed only by such other artists as Duse and some of the Moscow players; one is driven back on the trite is so, their unanimity of purpose and

well, and the orchestra under Mr. Polacco played with such eloquence. that one was moved to the reflection that there are advantages in living in the Provinces. By all reports, the per-formances of this opera at the Metropolitan of late have been dull in the extreme; perhaps everybody there is fed up with the ungrateful task of merely making a background for Challapin. But the Chicagoans, here for a brief stay, seemed bent on mak-ing the best background they were capable of; result, an excellent per-

formance.
What of the opera itself, heard here in recent years only inadequately. from the itinerant Russians? Dramatically, it is a badly constructed, episodic work. As for the music, a rehearing of it under better conditions inevitably brings up the old controversy over its revision. "Music by Moussorgsky." says the program; but how much of it is Moussorgsky's? And was Rimsky-Korsakoff justified, was he not, in his editing and re-

Toward the close of his biography. Rimsky tells us that he remained "in-expressibly pleased" on licaring this opera with his revision and orchestration produced with a large orchestra. and Chaliapin in the title rôle. Today

it would seem a little extravagant to say one was "inexpressibly pleased" with this music. What was the music like in its first form, as given in 1874? Evidently it was not too offensive, for Rimsky himself reports that the opera was produced then "with great suc-cess. We were all jubilant"; and a cess. We were all jubilant"; and a little farther on in his book he says: "Some two years later, the Lord knows why, productions of the opera ceased altogether, although it had enjoyed uninterrupted success."

Why, then, did Rimsky revise the work? He and Moussorgsky were He and Moussorgsky were adicals in youth. Moussorgsky great radicals in youth. passed from the scene still a radical but 20 years after "Boris" was taken from the boards, when Rimsky published his revision, he himself had become perhaps a little more "regular." He found faults in Moussorgsky's score which much disturbed a professor of long service in the St. Petersburg Conservatory. So he remedied them. Well, today his revision often sounds tame. One would like to hear the original score, with all its crudities and all its inspiration. L. A. S.

PROF. THOMSON

Kreisler-Tertis

Fritz Kreisler gave a recital in the

Fritz Kreisler gave a recital in the Boston Opera House yesterday afternoon, assisted by Lionel Tertis, viola player, and Carl Lamson, planist. The program included the Franck sonats for violin and plano, Mozart's "Symphonie Concertante" for violin and viola, and a box of pralines stamped with the names of Tartini, Porpora, Schubert, and the violinist himself as transcriber. The mere appearance of Mr. Tertis

on the concert platform with Mr. Kreisler was an event of extraordinary interest in itself. It was a remarkable, though characteristic, gesture of generosity on the part of the greatest of artists of the violin. Not that Kreisler has anything to fear from comparison with any virtuoso of whatever instrument: but famous concert stars are not in the habit of sharing their patch of firmament with other musical planets of any magnitude. Further, there seemed to be signifi-cance in the public artistic coalition of two men, each an outstanding representative of his instrument, whose

nations were recently at war.

But besides all this, the performance saying that the man for the time lives as the character he portrays.

The rest of the cast did their part so ception and a readiness of self-subordination possible only to artists of the first order. The music itself is first order. The music itself is typically Mozartean in its charming gayety, with a tender andante inter-lude; music perhaps not calculated to stir deeply in other hands. Yet its interpretation by these men was of an intellectual and emotional depth seldom plumbed in thec oncert hall.

> did not achieve a similar partnership with the violinist, probably there were few to cavil; for Mr. Kreisler gave the great Frenchman's work a rendientirely in keeping with piece performer. The lighter pieces played with the violinist's usual tion were easy and sure command, and one of them, his own transcription of a

One of the proofs that a work is entitled to be called a masterplece is, perhaps, that it will withstand any kind of treatment. If this be true, this per-formance of "Faust" furnished ample formance of "Faust" furnished ample justification of the statement. Only one member of the cast, Mr. Hackett, seemed to take more than a passing interest in either the acting or this singing of his role. From start to finish the performance was one of the most perfunctory it has been our misfortune to witness. Even Mr. Hackett's enthusiasm and excellent acting and singing met with but little response from his partners in the piece, and, apart from an occasional bit of good singing on the part of Mr. Baklanoff and Mme. Mason, there was little to lighten the dullness and gloom of the evening.

In addition to the apathy of the In addition to the apathy of the singers, the stage management was poorly supervised, and there were moments which were dangerously near the ludicrous, as, for example, the exit of the stage band after the Soldiers' Chorus, during which some of the unfortunate bandsmen became separated from their fellows and were obliged to wander aimlessly off as best they might. The Chicago property man was also niggardly in the matter of jewels. He

engineers, who recently was awarded the Lord Kelvin gold medal, will go to Epigland to receive the medal on July 11. The award was made by British and American Engineering sociéties acting jointly. It is awarded every three years as a mark of distinction for excellence in original research work in engineering. Prof. Thomson is the first American to receive this honor.

Anything Electrical Slince 1808 we have been giving a helpful gentric service. Repairing, rewiring and general electric work. A complete line of electric "service. Repairing, rewiring and general electric work. A complete line was an amark of distinction for excellence in original research work in engineering. SAN FRANCISCO Sutter 2339 "Write for Booklet 000000000 provided a pair of earrings, a necklace, and a mirror, which the unfortunate Marguerite took from a box much too large for its contents. And then, too, Mephistopheles was minus his usual accompaniment of red fire, an accompaniment which we like (let us confess it without shame). The duel between Faust and Valentine was but a sorry, half-hearted affair, and again. Mephistopheles struck no sparks from the swords, a picturesque touch which we have always associated with this scene. It may be that red fire and stage jewels are at a prohibitive figure in Chicago, or again it may be that the good inliabitants of that city have by this time so cultivated their powers of imagination that all such material aids have become unnecessary.

imagination that all such material and have become unnecessary.

And yet, in spite of these deficiencies it was good to hear Gouncd's masterpiece again. Time, uninteresting singand acting, inefficient stage management, all these cannot dull the beauties of a work which bears on every page evidences of its composer's genius.

S. M.

Roland Hayes

Roland Hayes.

Roland Hayes, tenor, sung yesterday afternoon in Symphony Hall. His program included Arias by Galuppi, Mozart, Duni and Handel, songs by Brahms, Hugo Wolf, Jensen, Dvoräk/ Debussy and Fourdrain, Negro spirituals and folk songs from East Africa.

Again Mr. Hayes gave evidence of his supreme artistry. His diction in German, French, Italian and English is worthy of the highest praise, as is his conception of the music which he sings. It would be difficult to choose among interpretations so apt, so distinguished, any which deserve special mention. All were a delight to the artistic sense by reason of their emotional and intellectual qualities. Mr. Hayes is not only a well schooled and musicianly singer, but an artist of originality and power as well, a singer who never fails to obey the rules of cool trace that quality which is usually. who never fails to obey the rules of good taste, that quality which is usually conspicuous by its absence in the con-cert room. Praise should be heaped with a lavish hand on a singer who has with a layish hand on a singer who has attained the highest summit of artistry by the sheer force of his talent and by the power which unceasing devo-tion to the highest ideals always brings. S. M.

Boston String Quartet

The Boston String Quartet (founded by Harrison Keller) gave the first of a series of concerts of chamber music last night in the Copley-Plaza Hotel. The quartet was assisted by Heinrich Gebhard, pianist and the program consisted of Ravel's Quartet for strings and Pierne's Quintet for piano and strings.

easy and sure command, and one of them, his own transcription of a Viennese melody of Heuberger, sugary enough in itself, but lovely in the glow of his tone, pleased so much that he repeated it.

There was a typical Kreisler audience, which is to say that the house was packed with enthusiastic auditors until there was barely room on the stage for the performers.

L. A. S.

"Faust"

Gounod's "Faust" was given Saturday night at the Boston Opera House by the Chicago Civic Opera Company. The cast:

Charles Hackett Mephistopheles. Georges Baklanoff Marguerite. Ledith Mason Valentine. Desire Defrere Martha Maria Claessens Siebel Irene Pavloska Wagner. Edith Mason Valentine Conductor, Ettore Panizza

One of the proofs that a work is entitled to be called a masterpiece is perhaps, that it will withstand any kind of treatment. If this be true, this performance of "Faust" furnished ample instification of the statement. Only one of the composer has performance of "Faust" furnished ample instification of the statement. Only one of the proofs the sure time of the according to the composer has descended to mere repetition. This is particularly of such treatment. This is particularly of such treatment to instrument which the principal motive is repeated over and over again and bandled about ever arriving at any particular point. The quartet is deserving of great praise for the careful preparation and entirely adequate performance of instruction of the statement. One of the proofs that a work is entitled to be called a masterpiece is perhaps, that it will withstand any kind of treatment. If this be true, this performance of "Faust" furnished ample praise for the careful preparation and entirely adequate performance of this somewhat ungrateful work. If the com-position itself was not altogether pleas-ing the playing of it was greatly so. Mr. Keller and his associates have undertaken in the giving of these con-certs the filling of a long felt need in the musical life of this city. They de-serve every encouragement. S. M.

ONE GREAT FAMILY BY RADIO PROPOSED

Canadian Railways President Hopes to Humanize Great System by New Plan

PORTLAND, Feb. 4 (Special)—The hundreds of employees of the Grand Trunk railroad from Portland to Montreal and all other men and women serving on lines of the Canadian Na-tional Railways are to be kept 'n touch with the activities of those railroads through the medium of the radio, according to an announcement received here, coming from Sir Henry Thornton, chairman and president of the great railway systems. This plan will require more than 100,000 sets

and with the privilege of paying in small installments.

It is believed by Sir Henry that this effort will result in humanizing the great system over which he has gen-eral charge. It is planned to establish broadcasting stations on both the At-lantic and Pacific and the president well as what is planned by the roads from time to time.

In making the announcement Sir Henry declared that a great railroad system is not unlike an industrial plant. It covers such a vast territory it is impossible to make the daily rounds to keep in touch with the employees but through the medium of the radio, there will be linked together a great railroad family.

Because of the many rural sections rough which the systems of the Canadian National railways pass, the management believes that the plan will bring great—enjoyment to many thousands of its employees who are so far away from large settlements that they have no opportunity to hear the grand programs so keenly enjoyed

in the great cities.

It is declared by Sir Henry that his railroad is the first to take advantage of the radio in behalf of their employees on such a pretentious scale.

DRAWLESS BRIDGE OVER MERRIMACK AT HAVERHILL OPPOSED

HAVERHILL, Mass., Feb. 4 (Special) -The plan of the special commission on the erection of the new Haverhill lower bridge over the Merrimack River to substitute a span without a draw will be opposed when the hearing is held before the Harbor and Land Commission on Thusday of this Land Commission on Thursday of this week, according to reports here. The commission states that about \$70,000 can be saved in the construction costs if no draw is placed in the bridge.

'ANDERS HAUGEN MAKES BEST JUMP

Meters Flat in Olympic Games Competition

CHAMONIX, France, Feb. 4 (P)— Anders Haugen of Minneapolis, United States rational champion, led the field in the Olympic ski jumping contest this afternoon, with a jump of 50 meters

afternoon, with a jump of 50 meters flat.

The distances in the ski jumping were: Anders Haugen, United States Army, 50 meters; Thams, Norway, 49 meters; Bonna. Norway, 49 meters; Landvik, Norway, 44½ meters; Haug, Norway, 44½ meters; Nilsson, Sweden, 44 meters; Wende, Czschoslovakia, 44 meters; Lemoine Batson, United States Army, 43½ meters; Jacobson, Sweden, 43½ meters; Harry Llen, United States Army, 41½ meters. rmy, 41% meters. As the style of the jumper is taken

As the style of the jumper is taken to account, however, the ranking of the contestants probably will not be nown before tomorrow.

After the jumping event, Thams nade an exhibition jump of 57½

After the jumping event, Thams made an exhibition jump of 57½ meters.

Norway carried off first honors in the 1924 Olympic winter sports. The official number of points totaled by the winner will not be known until late tonight and perhaps not until tomorrow, as the ski jury must figure out the intricate system of point allowance. However, with four men placed in the first six in the distance ski jump and a like number in the combined race there is no possible chance of Norway losing. It is only a question of how many points they may finish ahead of Finland, their nearest competitor.

A complete revision of the method of scoring the winter sports of the games for future years seems likely to develop from an exchange of views and proposals by the delegates of 17 nations, participants in this winter's and women's championship to longer than the proposals of the subject at the subje

ons, participants in this winter's

tions, participants in this winter's sports, who talked over the subject at a banquet last night, presided over by Baron Pierre de Coubertin, president over the International Olympic Committee. The Baron came to Chamonix yesterday especially to see the Americans and Canadians in the final hockey match.

The hockey results were the subject of the speeches of the evening, and all the delegates except the Swedish expressed the desire that the points awarded for hockey be raised above those for other events, such as fancy skating, bobsledding, and curling. Baron de Coubertin agreed to place the question before the next international meeting. Some of the speakers put forward the idea of counting 50 points for the hockey finals, and others proposed counting elimination games at 10 points to the winners, and the semifinals at 25 points. The American team leaves for Switzerland today to play two exhibition games, returning to Paris at the end of the week.

Canada won the hockey championship by defeating the United States, 6 to 1. It was a fast and hard-fought contest from start to finish. Ten Olympic points when the refere, Paul

olympic points were thus added to Canada's total.

The American team went down with colors flying, when the referee, Paul Loicq of Belgium, blew his whistle at the end, and the sixtleth minute was the roughest hockey struggle ever fought in Europe.

The Canadians, victors though they were, fully realized they had been through a real hockey match, but the indomitable courage, brilliant individual play and skillful sitck handling of the Americans could not prevail against the smooth, clock-like combination work of the sextet from the Dominion.

Capt. Irving Small, H. J. Drury and C. J. Abel starred for the United States. No one stood out prominentll among the Canadians—that is why they won. The Canadian team was a well-oiled machine. Harry Watson's name may appear oftener than that of his colleagues in the scoring column, but in each instance he was merely the last link in the combination as Reginald Smith, Albert McCaffery to Watson, or Capt. Duncan Munro, Smith to Watson, and into the net.

On the other hand, Drury, who scored

Smith, Albert McCaffery to Watson, or Capt. Duncan Munro, Smith to Watson, and into the net.
On the other hand, Drury, who scored the home goal for the United States, did so after a single-handed run down the ice, which ended successfully, unlike many other attempts. There was much clever handling of the sticks and artful dodging by the Americans, but Munro and Beattle Ramsay of the Canadians smothered a majority of the tries. The summary:

PACIFIC COAST HOCKEY ASSOCIATION

WESTERN CANADIAN HOCKEY ASSOCIATION STANDING

VICTORIA, B. C., Feb. 4 (Special)— Play in the Pacific Coast Hockey Asso-ciation during the last week has been big disappointment to the coast teams. Regina's two victories out of three games on the coast came as a climax to a long series of successes for the Prairie teams by narrow margins. The Prairies players have shown superiority over the coast teams this season, but in fairness it must be said that nearly all their victories on the coast have been by the smallest possible scores. As a result of events on the coast during the last week, the coast championship apparently will be settled on the Prairies, Since losing to Regina here Friday. Up on St. Patricks Victoria must depend now upon its

playoff. Seattle, on the other hand, while it

the strong defensive play of all teams is keeping individual totals unusually low.

The Western Canadian Hockey Association is evidently developing in Calgary, a certain contender for the world's hockey championship. Under Edward Oatman, former Victoria captain, the Tigers have won 14 games to 6 defeats, and been successful in 10 successive contests on home ice. Their lead over all other teams is so substantial now that their place in the Prairie playoff is conceded. On the basis of their play so far they should win the Prairie championship, and their chance of defeating the Coast champions, too, is excellent. Anything may happen between now and the end of the season, of course, but on the season's play to date, Calgary is easily the strongest team west of the Great Lakes.

Saskatoon's position in second place is precarious, as the Crescents have played three more games than Regina, which is only two points below them. Calgary and Regina are regarded on the coast as final contenders for the championship. Edmonton's play, only at times brilliant, has been disappointing, and the Eskimos will have to set a record-breaking pace to get into the playoff now. THE FOURTH ROUND The Massachusetts Squash Racquets Association tournament, being conducted by Harvard University, enters the fourth round today as a result of matches played over the week-end. Carroll Harrington won from C. J. Lennihan Jr., and will meet W. P. Dixon and Elliot Church, who defeated R. D. Sears in a hard-fought match also on Saturday, will oppose M. P. Baker of the B. A. A. this afternoon. MASSACHUSETTS SQUASH RACQUETS

TORONTO, Ont., Feb. 4 (Special)— University of Toronto was given an un-expectedly hard game here Saturday by McGill University. In the Senior Inter-collegiate Hockey League and while the locals won the game, 4 to 2, the losers made a strong finish and for a while in the third period, completely strategies the winners, who now have

The locals apparently underestimated their opponents following their easy victory in Montreal in the opening game of the schedule and at no time were they able to show the form that they have displayed in previous games. McGill relied mainly on its individual attacks and for the first two periods shot from outside the defense and its efforts to score proved easy for G. A. Thompson in the Toronto goal. In the final period McGill had more speed than the winners and worked inside the defense and then Thompson was given a buy 20 minutes.

The winners attacked in two and three-man formations, with occasional individual rushes; but they found great improvement in the McGill back-checking and also in the rearranged defense.

G. R. Dempsey and McMahon used their bodies in stopping the Toronto attacks, and gave Reid good protection, but at that he was called upon to give a stellar display in the net.

Toronto had the best of the play in the first period, but was unable to score more than one goal, owing to McGilli's minute to skate down the ice and the first period, but was unable to score more than one goal, owing to McGilli's like the puck each, time.

but at that he was called upon to give a stellar display in the net.

Teronto had the best of the play in the first period, but was unable to score more than one goal, owing to McGilli's strong defensive play. The locals maintained the offensive throughout with occasional individual rushes by McGill. Finally, Plaxton passed out from the corner to G. E. Westman, who was uncovered in front of the McGill goal and he scored. Capt. Z. N. Hudson's pass to Greey was responsible for the first goal of the second period, and the total

he scored. Capt. Z. N. Hudson's pass to Greey was responsible for the first goal of the second period, and the total was increased when Westman successfully tried a long shot. McGill showed fiashes of form in this period, but only a few times was it successful in getting within close range of Thompson.

At the start of the final 20 minutes. McGill resorted to combined attacks for the first time and was rewarded when C. J. McGerrigle beat Thompson. Several other chances were spoiled by over-passing when close in. Greey rushed, and after passing through the entire, visiting team, passed to Plaxton, who scored. From then on the visitors had the better of the play and added their final goal when Glennie shoved their final goal when Glennie shoved their final goal when Glennie shoved at scrimmage in front of the Toronto goal. The winners were kept on the defensive The winners were kept on the defensive for the remainder of the game, but there was no additional scoring. The summary:

Corinthians Lose in Second Round

LONDON, England, Feb. 4—Playing appreciably below the form they showed when defeating the Blackburn Rovers in the first stage, the Corinthians, whose name recalls halcyon days in amateur soccer, were defeated 5 goals to 0 by West Bromwich Abion Saturday in the second round of this season's competition for the Football Association Challenge Cup. Although the score gives the impression of something like a route, there was nothing season's competition for the Football Association Challenge Cup. Although the score gives the impression of something like a route, there was nothing in the play to justify such a description. The amateurs found themselves facing an array of brilliant footballers, who combined delightfully together. For several weeks Albion supporters have not had much hope for their team. It had good football in it, but was not winning matches and consequently occupied a lowly position in the league standing. Saturday it touched top form, to the great delight of some 50,000 watchers.

The amateurs began very shakily. Men like C. T. Ashton and A. G. Bower were miskicking—the former twice missed the ball altogether right in front of his own goal—and they had not settled down when J. L. Spencer, on the

THE CLASS B TITLE

GRINNELL, Ia., Feb. 4 (Special)—
The saturday at basketshil, 43 to a standing, Saturday it touched to form to the great delight of some 50,000 to the Great RRS. JESSUP WINS FINAL Special from Monitor Bureau NEW YORK, Feb. 4—Mrs. J. B. Jessup, after an absence from the courts of almost two years, showed that she had retained her old skill during the lapse by defeating Miss Lillian Scharman, the youthful player who reached fourth place in the national ranking last year, on Saturday, in the finals of the invitation tourney for women of the Heights Casino. The score was 6—4, 6—8, 6—4, and the play throughout the entire contest was extremely close, the new service of the Wilmington player proving the chief determining factor in the match. In everyaet Miss Scharman scored the greater number of earned uoints, but her errors, especially in driving into the net, balanced these, and the six-pipint difference between them was accounted for by nine service aces to three.

IOWA UNABLE TO KEEP PACE WITH CHICAGO

IOWA CITY, Ia., Feb. 4 (Special)—University of Iowa's quintet, after outscoring the powerful University of Chicago cagers during the first half, could not keep up the pace, and lost a hardfought game to the Mardons by a 31-to-18 count here Saturday night. The game was one of the fastest ever seen on the local floor. Chicago got the jupy when H. E. Barnes '25 made a free throw, and Harold Alyea '26 made a pretty throw under the basket. The Hawkeye offense soon started, and with H. M. Janse '25, leading the attack, lowa gained an 11-to-5 advantage. The teams played evenly during the rest of the half, and Iowa ended with a 15-to-12 advantage. IOWA CITY, Ia., Feb. 4 (Special)-

teams played evenly during the rest of the half, and lowa ended with a 15-to-12 advantage.

The Maroons came back in the second half with a strong five-man defense, and for 16 minutes they held lowa scoreless. Their offense showed improvement and Capt. Campbell Dickson '24, and Alyea carried the ball down the floor, time and again for counters. Even when Barnes went out, the Maroon offense was not slowed, and J. F. Smidl '25, who went in, scored a basket to make the score 31 to 18. Acting-Captain W. K. Hicks '24 played one of the best defensive games in his career, and came in for two baskets. Jansewas high scorer with four baskets and two free throws. Captain Dickson and Alyea starred on offense for Chicago. The dribbling of Hicks of Iowa, and Barnes, and J. B. Duggan '24 for Chicago, featured. The summary:

International vs. Individual

The importance of international sovereignty and control over the air has waxed as that of the question of individual ownership has waned. Of both alike, however, it has been true that early diversities of view have tended to disappear, and that there is little disagreement on broad principles now. All parties are agreed that it is improper that trespass suits should be sustained against pilots who fly over a farm at a reasonably high altitude, even though it has been "posted" by painting a threat of prosecution on the roof of a barn, and attempts to bring such suits are now regarded merely as harmless legal eccentricities. All are substandially agreed in conceding sovereignty over air-space to the State which lies below.

It was not always so. When the use of aircraft first began, students of international law were much divided.

possibly have worked satisfactorily when there were no aircraft except free balloons, for balloons are not forced to immediate descent at any time during their flight. With the coming of the airplane, however, such a doctrine became quite as unthinkable as that of complete freedom, for an engine failure may always force a descent, and an airplane overhead, if not in proper condition or if flown by an incompetent or reckless pilot, forms a continuous menace to those on the ground below. In that connection it is interesting to note that Fauchille, the great French authority on international law, originally held to the doctrine of the "territorial zone" of fixed depth but later came to concede a very considerable degree of air sovereignty based on the right of self-protection of the underlying state, and that the date when his view was most sharply modified coincided very closely with the time of the first public cross-country airplane flights in France.

It appears that, if one of the three original opinions had had to be accepted without modification, only the first, that which maintained unrestricted sovereignty, would have been available. During the war, indeed, sovereignty

purely as a matter of international courtesy, and sovereignty remains complete in legal theory. The right of innocent passage is now, however, enshrined in the International Air Navigation Convention, which America unfortunately has not yet ratified, and it is unlikely that it will ever be withdrawn. For all practical purposes, the navigation of the air is free to all members of the League who have compiled with the licensing and registration requirements of their own countries, and it will so remain, making possible a facility and directness of communication among the nations of the world which can only prove advantageous for all.

Canadiens Check

By defeating the Ottawa Senators here Saturday night I to 0, the Canadians remain tied with Hamilton for third place in the National Hockey League race and gained two points on St. Patricks. Now the three teams are closely bunched in the race for second place. St. Patricks being but two points ahead of the other two teams.

The locals played the better game and deserved to win, but their margin of superiority was small. Ottawa was without Nighbor at center and while Clancy played a good game, the poke-checking of Nighbor was missed and the Canadiens were able to penetrate the Ottawa defense better than in any preceding game this season. The winners played their best game on local ice, the three forwards, Morenz, W. Boucher and Joliat, showing a great turn of speed and their combined attacks gave Benedict many anxious moments, while their persistent back-checking broke up many Ottawa attacks.

Mantha and Sprague Cleghorn were

It was too late in the afternoon when Tommy and his mother arrived Joseph right beside William. to arrange a motor race right off, but

it made something exciting to look Tommy. forward to next morning.

Now Henry's motor car was exdectly like Tommy's, and William men in the business who can drive looked so much like Joseph that they might have been twins; and, if they

hadn't been fastened into their motor cars, it would hardly have been sur-prising to see them jump out and

held the two cars exactly side by side and pointing straight at the door "It wouldn't be fair for either of us to say when to start," said Henry.

"I don't see who's going to say when."
"The clock's going to strike in a
minute," said Tommy. "Let's agree that when the clock strikes will be the signal."

The clock ticked and ticked and ticked—and then it struck. And the instant the clock struck, Tommy let go of his motor car, and Henry let go of his motor car, and away went Joseph and William side by side

As YOU may remember, wherever sunlight sat a stuffed rabbit, and over near the door stood a toy, house.

"Go it, Joseph! You'll beat him!"

the wheel and steered, though of driving. Joseph couldn't get the course he was upside down himself.
"I've got a motor car like that," William couldn't get the shadow of

"Hurry up! Hurry up, William!"

"More speed! More speed, Joseph!

But Joseph and William were still William can drive yours."

"We'll have a motor car race the first thing tomorrow morning," said Henry. "I guess William can drive a car faster than Joseph."

But Joseph and William were still side by side when they passed the toy house—and they both hit the string at the same instant and went through the door out into the hall. And when they slowed down and stopped, William were still side by side when they passed the toy house—and they bow hall. And when they slowed down and stopped, William were still side by side when they passed the toy house—and they bow hall side by side when they passed the toy house—and they both hit the string at the same instant and went through the door out into the hall. And when they passed the toy house—and they both hit the string at the same instant and went through the door out into the hall. And when they passed the toy house—and they both hit the string at the same instant and went through the door out into the hall. And when they slowed down and stopped.

"That's what I call a tie," said

UNITED STATES WINS

prising to see them jump out and embrace each other with great joy. At it was, each sat on his seat and looked straight in front of him, with his hands on the wheel.

"The way we'll do," said Henry, "is to stretch a string right across the door, and then we'll start them together at the other side of the room, and the first one that hits the string will win the race."

So they stretched a plece of string across the open door of the playroom, about two inches higher than the floor. Then they went across the room, and Tommy wound up his motor car, and Henry wound up his motor car, and they knelt down and held the two cars exactly side by

ANNAPOLIS, Feb. 4—The speed and aggressiveness of the United States Navail Academy's basketball team was very apparent in its victory over Bucknell University, Saturday, 31 to 12. Most of the lead was acquired in the first half, which ended 23 to 8. The same day the Navy's wrestling team defeated Brooklyn Polytechnic, 28 to 9, with a total of five falls and one decision.

EDUCATIONAL

The maximum score in intelligence tests is 212 points. Inspection of the foregoing table shows that No. 5 has an intelligence score slightly above ½ up the scale, but the best on general work; that No. 15 has the highest score on intelligence test, but the lowest on general work, and that No. 9 has the lowest score on intelligence test but better than eight of the list on general work.

The pupils of this school had not

The foregoing shows positively that there is no correlation between the scores on intelligence test and those on general school work; but that if these tests have any value, it is to the discredit of the intelligence tests.

Proficiency and Deficiency

Proficiency in special subjects is no evidence of superior general ability; neither is deficiency in a special subject evidence of inferiority. Senator Charles Sumner's credits in mathematics were donated by his alma mater because he had so little faculty for that subject.

An unfortunate but common delu-

sion is that the teacher takes an attision is that the teacher takes an atti-tude of being much smarter than his pupils. In academic qualification he should be far in advance of his pupils; but rarely is there a school in which there are not one or more pupils natively much superior to their natively much superior to their teacher. This is no discredit to a teacher. Neither is it a hindrance to his work as a teacher. A lad of 13, two weeks after entering high school as a freshman, was teaching mathematics to his principal. The finest thing about it was that that principal had the good sense to improve his opportunity to learn from a genius.

Let the teacher be honest with his pupils, and admit that, except in his acquired qualification, he is in no sense their superior. Let him not doubt nor fear. This attitude will breed no distrust between him and his pupils. On the contrary, it is the best invitation to perfect confidence that he can possibly extend to them.

A Violation

To stratify and make casts among school children, as this system of classifying them cannot avoid, is a violation of fundamental brotherhood. The pretense is made that the result of such a test is kept from the knowledge of the subject. But the fundamental pretense is that the teacher makes these tests to enable him to properly classify his pupils. But the moment he classifies them on this basis he announces, both to the nupils and to the public, that one pupil is superior and another inferior. He ammers one with the notion that he is The pretense is made that the result made of finer clay than his fellows and should no longer be tarnished by their inferior, composition; and he brands the other as inferior, and relemediocrity, and moronism. He makes a snob of one, and a recluse of the other. And the abashed and dis-heartened recluse degenerates, and forms habits nameless and destructive.

The advocates of this system insist that it was of great value in select-ing men for the army in the late war. ing men for the army in the late war. Then let such be its application. But anyone who aspires to teach children ought to be able to recognize some difference between an army in battle and a schoolhouse full of children. We select our fittest young men and drive them into battle, as we select our fattest sheep and drive them to the shambles. We train such young men for war, our children for peace. We train such young men to face We train such young men to face death, our children to face life and

In his address at Cornell University Founder's Day, President W. O. Thompson of Ohio State University said:

"Is it true that too many of our youth are attempting higher education? Is it true that a considerable number of these young people are incompetent? "They (the parent's) insist that inferior teaching may account for results as definitely as stupid students. Public sentiment propose to make clear the responsibilities of the teacher. It is obvious that we cannot escape by way of the Binet teat unless it shall be applied all around. Then it may reveal the number of morons in our faculties."

A New Fangles Fad

And the following from Dr. David kinley, president of the University of Illinois:

"I do not believe that we are as yet at the stage where we can assuredly say that the so-called laws of heredity determine to a greater or less thail mot be, primarily, useful and emissent, or that the wisdom of experience may be set saide by the new-fangled of candidates for admission to secondary schools. "What is revealed on dary schools." "What is revealed on any the set saide by the new-fangled of candidates for admission to secondary schools." "What is revealed on any the set saide by the new-fangled of candidates for admission to secondary schools." "What is revealed on the part of the candidates for admission to secondary schools." "What is revealed on the part of the said of the putting of questions designed to teat their heavy have reacted to the ordinary school teaching; and (c) the putting of questions designed to teat their have have reacted to the ordinary school teaching; and (c) the putting of questions designed to teat their have have reacted to the ordinary school teaching; and (c) the putting of questions designed to teat their have have reacted to the ordinary school teaching; and (c) the putting of questions designed to teat their have have reacted to the ordinary school teaching; and (c) the putting of questions designed to teat their have school teaching; and (c) the putting of questions designed

Consequences

The writer has observed a distinct retrogression in schools where this system of classifying pupils has long been in use. In the spring of 1923 a scholarship contest of high school pupils was held at Western State College of Colorado. The contest was free-for-all to the high schools. A nearby high school, which has been ridden by this

cup.

The pupils of this school had not been spoiled by this vicious system.

N ATTEMPTING any generaliza-

adult class, it is necessary to bear in

the class-mind just as there are end-

less varieties of grouping the individ-

uals who compose the classes. The

xeperience of each class differs, and the tutor's method of approach differs, or ought to do so, accordingly. More-

over, and contrary to expectation, it

is not the most homogeneous class which is always the easiest to inspire

One recalls a class of steel-workers,

who worked together and who know each other familiarly. It was difficult to maintain keen discussion in such a

class after the lecture was over; ques-tions and ideas had to be provoked by the tutor, whereas the presence of men from other occupations would have brought automatically the stimu-

lus of a different point of view based

ncluded railway guards, clerks, teach-

On the other hand, one rememhers with keen delight a class which

industrial experience, and certainly upon a three years' course no class could have maintained a live-lier and healthier interest in the sub-study of industrial history, thus pro-

fields.

It is all the more tragic because to be in these fields is all that the campesinos have ever asked of life. No people are more peaceable, more gentle, more moving in their love of their terras, the little isolated homelands in which they have been born.
It is one of the outrages of history that men who ask for nothing more than earth and rain and sky enough to grow their bread should be used to bring their country to that abyss of ruin on whose edge Mexico has trembled so often in these last hundred years.

It is an outrage which the Obregon Government has set itself to do away with. And education is the way in which it hopes to do it.

Something More Fundamental No one before has ever tried to edu-cate the campesino—not in the sense, at least, in which the present regime conceives of education. True, in the last years of his long autocracy, Diaz One of three facts is apparent, namely: (1) the pupils of the winning school had not been interfered with in their school work by this measuring fad; or (2) they are a brighter lot of students than those of

Typical Peasant Huts in Mexican Mountain Section The Government Wants to Teach These People to Build Better Homes

what the Government is trying to give them. To the Mexican intellectual the redemption of the campesino has become something of the passion which the redemption of the passion which the point where the redemption of the passion which the redempti

of Public Education.

Scarcely was the ink dry upon his appointment before he was organizing a department of native culture whose mission was the blanket one of rehabilitating life among the country people. Out into the most backward and inaccessible parts of the Republic he sent his teachers, bade them each explore a section and then come back and tell him what he ought to do.

A Composite Plan The joint report of these "mission-the Carnegle Institute of Technology eros" resulted in the adoption of a The arrangement has several nove plan which, with regional modifica-tions, is being tried out through sev-eral of these most backward parts. In some central settlement a piece of "must and shall attend sheet metal land is secured, and on it, when the inplan which, with regional modification, he is endangering the life of his class. If, however, he can treat the subject so that it lives, if he can show plays house" is built of adopt it. subject so that it lives, if he can show the bearing of the past upon the present, and if he is ready with apt illustrations from local history, his class may be surprised in spite of themselves into absorbing interest. Half the difficulty in the teaching of economics arises through the confusion, in the thought of an unprepared class, between economic science and economic art. The students ple's house" is built-of adobe-if ple's house" is built—of adope—it upon the plains of stone; if in the mountains, of cane; if in the "hot lands," of anything the earth affords, and which the campesinos themselves can handle. For in whatever part the missioners finds himself, his idea is recovered him himself, and the interesting feature is the missioners finds himself, his idea is to teach the natives to develop what is at hand, and to live a full and happy

life in the development of it.
This "people's house" and the land around it is to serve as a school center, as on agricultural station, as a studio for the furthering of the native arts and as a place of gainering for reads the official instructions for the conduct of these new centers, "all the adults of the district are to be invited to a simple meal." But the hope is that under the big-brotherly encouragement of the missioneros the couragement of the missioneros the treely for gatherings of their own.

ers, insurance agents, a produce brok-er, a building contractor, an engineer, a miner and a postman. There could not have been a greater diversity of tricts, for a class which is embarking

HE Leicestershire Education Committee has for several years past conducted an annual examination conducted an annual examination of the 11-year-old pupils in its primary schools for the purpose of selecting children to proceed to the secondary schools, and a feature of the examination which has attracted general attention is the oral test. This has been conducted by visiting teachers drawn from all parts of the country other than those in which they act as examiners; and it is now possible to summarize their experiences and estimate the value of this part of the examination.

he examination. In a recent memorandum on the subject the education committee point out that the term "oral examinaout that the term "oral examina-tion" is used to cover a consultation between the visiting teachers and the head teacher as to the capacity and promise shown by the pupils. This conference, indeed, together with the inspection of school records and school examination papers may be regarded as the primary purpose of the visit. In addition, however, val-nable supplementary information as inspection of school records and and who shall test the teacher? Who will measure his right to say that one child shall have an opportunity which shall be denied another? Who will determine his ability to pass life sentences on the innocents?

In his address at Cornell University Founder's. Day, President W. O. Thompson of Ohio State University ranky in order to ascertain how far

business. But other necessary qualities—application and staying power—may be overlooked."

It is reassuring to teachers to learn that the tests have been found to confirm, as a rule, the opinion of those who are in daily intellectual contact with the child, and to enhance the value of the teachers own estimate of a child's general capacity and promise. General agreement, however, will be expressed with the opinion of the examiners that systematic practice in the answering of intelligence tests is to be deplored. Occasionally such tests are useful; they cultivate in the pupils a spirit of inquiry and encourage in them the habit of asking for explanations; at the same time they provide the teacher with some useful data as regards certain pupils who have not hitherto reacted satisfactorily to the normal teaching of the school. But it must not be forgotten that after all tests are not education.

The same spirit is displayed toward writing.

The same spirit is displayed toward writing.

The English Board of Education demands that each tutorial-class student what shall do the written work required by the tutor; but from men who may be quite unused to handling the pen, this is no easy task. Certainly it cannot be obtained if the essay is to be regarded as a compulsory test of their knowledge. But if they are shown that the essay is for their own benefit and not for that of the tutor, if each document is respected as a private matter between the individual and the teacher, and if they are encourage and at what length they please, then written work can usually be obtained in plenty.

SCHOOLS—European

HOLMWOOD SCHOOL school. But it must not be forgotten that after all tests are not education. The sum of the matter, in the opinion of the examiners, appears to be that, in order to ascertain whether the pupil has seized the fundamentals of the subject taught, in order to measure his reaction or resonance to of the subject taught, in order to the teaching given and in order to the teaching given and in order to realize his power of arranging and expressing his ideas, the ordinary school examination is indispensable; provided that such an examination may be corrected or verified in an interview, and by consultation with those who are in daily contact with the child.

viding a very necessary background. There is generally a restiveness on the part of some at having to mark time, as they think, for so long. Here, once more, everything depends upon the tutor. If his treatment is dry, too dispassionate, and lacking in illustrative depends of his mind that no two classes are really certain attitudes common to most alike. There are endless varieties of classes, and these would seem to be the classemind first as there are endto the subject of study by reason of certain questions which are already puzzling him, and he is impatient to find the answers to his own doubtings and difficulties. Thus a great many students of economics are concerned

students of economics are concerned about the necessity for the nationalization of industry, the iniquity of "interest," or the powers of international financiers. They have little or no conception of the meaning of scientific method, of the logical analysis of a subject from the simplest beginnings. In such cases a curr rebuff may mean that a student jumps pared class, between economic science and economic art. The students would begin building up the ideal state before they have analyzed the fundamentals which govern existing forms of society. A systematic way of meeting these difficulties, and upon to the conclusion that his tutor is either unsympathetic or else ignorant, and therefore may leave the class. this most tutors seem agreed, would be to have, for each class, a short It requires some tact on the part of the tutor to pacify the inquirer with the promise of complete satisfaction preparatory course upon elementary philosophy or logic; any course, in fact, which would teach them something of the meaning of natural science, of art, of thought itself, and answer completely and immediately, means not only to countenance the in-troduction of irrelevant questions but of the relationship of one science to came

of the relationship of the science to others.

The second general attitude is shown in the refusal to have the discipline of school days recalled again. There is resentment at any-

SWISS VOTE FEB. 17 ON LAW OF 48 HOURS

Amendment Calls for Extension to 54 Hours "in Times of Grave Economic Crisis"

GENEVA, Jan. 15 (Special Corre-ondence)—Switzerland is just en-ering upon a particularly keen polit-al struggle. Not since the autumn 1922, when the referendum was ken concerning the capital levy, has much interest been excited as at a present time in the proposal to odify the law concerning the 48-mur week.

modify the law concerning the 48-hour week.

This law was passed just after the war at a time when anticipations of a trade boom were general. Since then Switzerland has been suffering from an economic crisis as serious as any in Europe. There has been wide-spread unemployment in all her industries, and vast sums have been spent in relief, either in the shape of doles or in special works undertaken for the purpose. The Swiss franc has maintained a high level, which has interfered with the country's, foreign trade, and she has suffered severely from the competition of countries with debased currencies. Import restrictions, while preserving the home market to the home producer have caused high prices, thus increasing the cost of living and necessitating high wages, which have increased production costs and so on in the usual vicious circle.

Swiss Empleyer Handicapped

Swiss Empleyer Handicapped

which have increased production costs and so on in the usual vicious circle.

Swiss Employer Handicapped

For long it has been claimed that the eight-hour day, rigidly enforced in Switzerland, is the root of all the trouble. It is declared (perhaps not quite accurately) that while in other countries the eight-hour day is acknowledged in theory it is applied rather in the spirit than in the letter, and that the Swiss manufacturer is handicapped in consequence.

If, says the employer, the workers insist on retaining the eight-hour day they choose unemployment, for orders will go to other countries. It is no longer a question of protecting Swiss

MARKET, need or importing coal and minerals which foreign competitors possess within their own borders, lack possess within their own borders, lack possess to the sea, and cheap transit both for importing raw materials and for exporting their goods when produced.

It is only proposed to amend the eight-hour law for a period of three years, during which time the effect may be seen. If the change should be adopted it will be interesting to watch whether it proves a panacea for the illis which at present beset Swiss economic life.

CASTE QUESTION

RECURS IN INDIA

longer a question of protecting Swiss industry, but of re-establishing the equilibrium, which has been upset by the adoption of the 48-hour week. It is therefore proposed to amend the article of the Swiss Constitution

by which the 48-hour week was estab-lished by the addition of a clause stating that: "In time of grave economic crists of a general character the normal working day for each worker may be prolonged up to 54 hours per week." The proposal will be voted upon by referendum on Feb. 17, and in the meantime a fierce campaign is

the meantime a fierce campaign is being waged on both sides.

The Socialists, naturally loath to cede any ground gained in the past, are opposing the amendment with all their force. They claim that the buying power of the workers will be diminished, thus affecting the general prosperity of the country, and that, while production may be increased, it is not merely an increase of goods but of buyers that is needed. They describe the propesal as resctionary, and refuse to believe that the application of the extension of hours percation of the extension of hours per-mitted would be temporary.

Working Hours Prolonged There are signs, however, that in ome instances the workers are willments, and much is being made of an incident which has occurred in an engineering firm at Schaffhausen, where the management, in order to meet demands for a reduction in price. made by the Federal Railways, saw no alternative but to prolong the adopted measures for mitigating working hours of certain classes of hardships of the "untouchables." their workers, the additional hours being paid for. The workers' repre-sentatives, brought into consultation, sentatives, brought into consultation, acquiesced, with the reserve that the theory of the eight-hour day was in no way affected. The decision was upheld by the majority of the 600 workers concerned, but has caused great indignation among the extreme section, who are agitating for its rescision.

Was resolved to request to request to affix boards such as law courts, the members of the to take advantage passed in the last legislative council.

proposal for the amendment, conproposal for the alternation, cor-cerning two factories belonging to the same Swiss firm, the one situated in Switzerland and the other in France. The figures given went to prove that the worker in the French factory working longer hours and having no payment for holidays or for time spent in cleaning up, etc., furnished

New Currency

Special from Monitor Bureau

LONDON, Jan. 20—In introducing the Burget for 1924 before the Lithuanian Seimas (Parliament,) the Finance Minister struck a hopeful note. He confessed that last autumn, before the establishment of a national currency, Lithuanian State economy was on the edge of an abyss. Her currency had always been the German mark and the Russian ruble. Both of these eventually becoming valueless, caused the loss of almost the whole of Lithuania's circulating capital. The introduction of the litas had saved the State from ruln and incidentally accelerated the progress of affairs in Memel territory, which, being left for several months with the ever-depreciating mark, saw the benefits of the stabilized currency next door. The litas, said the Minister, had gained in strength, being accepted in East Prussia and in Polish Lithuania and also quoted on foreign exchanges.

Lithuanian export trade depends allowed the stabilized currency reached the polision of experts the average crop per acre could be greatly increased by more intensive Cultivation and Better Seed

VIENNA, Jan. 15 (Special Corremow many economic problems in the reconstruction genomic problems in the reconstruction of reamont many economic problems in the reconstruction of the many economic problems in the reconstruction of the people of Austria none is more important than agriculture. In the old dual monarchy two-thirds of the people were employed on the land, and the were abple to export a certain amount of produce.

New Aust country to another. Prohibition has been introduced by force of the dis-tinctly expressed will of the people. To repeal it by means of a Storting resolution without asking the people is, the resolution says, an insuit to popular government, a brutal en-croachment upon the rights of the

The draft for the political platform program of the prohibitionists, which was passed with a few significant formal changes, calls for the maintenance of liquor prohibition in such a way that it cannot be repealed except with the consent of the people. expressed through a popular referendum. No kind of liquor rationing is wanted.

The Minister laid stress on the great need for internal transport communi-cations. Roads were bad and railcations. ways lacking. But he was able to announce that a credit of £1,000,000 had been arranged with a British firm for the supply of the material neces-sary for railways, elevators, and other agreement to prohibit snuggling.
The Government must support the
building up of new markets for the

fish products that are now sold to Spain and Portugal. The license of brewers to sell their beer directly to the consumer must be abolished. Wine and beer clubs must be forbidden, and the production of fruit wine submitted to control and fines. There must be adequate information about 5402, over 2000 having been added to the number in the last three years. It is recognized that this is only a beginning of what is in front of Lithuania, with her wide field of raw
material in agriculture and forests.

With regard to forth. So far the prohibitionists have not appeared as a separate political party. The Liberal or Left Party, which has been in power from 1913 to 1920, and

since then has alternated with the Conservative Party, hitherto has sup-ported their policy. the Government had a monopoly of the spirit trade. The best that could be said about this was that it would allow of a better regulation of the drink traffic than was possible when the trade was in private hands. A new INCREASED ACTIVITY lesue of metal coins was contemplated for 1924, in the first place for the subsidiary coinage, to be extended later to litas coins of par value. Official staffs had been reduced, and 158 ships, with a total tonnage of \$1,851 registered tons, entered the port of Tallinn (Reval). The number of ships steps would be taken to raise the Tallinn (Reval). The number of ships which left the port during the same period was 497, tonnage \$3,802 tons.

The number of ocean-plying vessels entering the port of Tallinn was 181, tonnage 67,107 tons, and the number leaving was 236, tonnage 68,605 tons. The arrivals of ocean-plying vessels at the port of Tallinn in October, 1923, have increased slightly when compared with the same period for 1922, when 206 ocean-plying vessels with a tonnage of 62,451 tons entered the port.

The Windsor Chair \$17.50

THE WINDSOR CHAIR pictured, one of many interesting versions of this companionable type of chair, displayed here, is a featured value at \$17.50 (for Chair or Rocker).

The beautifully modeled saddle seat of this particular Chair is cut from a solid slab of mahogany. The turnings are of birch.

The bendings are of elm or maple, ma-hogany being too brittle for these parts. Work-manship and finish throughout are of the best. (Fourth Floor)

FREDERICK & NELSON SEATTLE, WASHINGTON

ART NEWS AND COMMENT

in the open. Albert Sterner, alted aim abetted by his stereoptican, brought forth a whole bag of facts at the second session on the art of drawing, while for the final evening the velvethung stage of the Anderson Galleries was turned into a sculptor's studio for the benefit of Mahonri Young, who

had agreed to take on Joseph Pennell for a few plastic rounds.

The scene opened with Mr. Young's preliminary warming-up. Attired not unlike a plasterer, he made a striking. omewhat incongrous, picture against the rich red hangings. While a large floor covering had been laid against possible contingencies, the process of piling wet clay on the armature endangered the hangings and the nearest spectators more than once with flying bits of the portrait-to-be. Round and round he moved, thumping. couging, slapping, scooping, until the mass of wet potter's clay began to ap-proximate the general shape of a head

and shoulders. A running fire com-mentary on things sculptural accom-panied this part of the performance, which he called "just a job," and he which he called just a job, and he craved the audience's indulgence for attempting to make Mr. Pennell's portrait in 1½ hours, while the great Rodin had spent a whole month sculping Bernard Shaw.

A Messy Art

"Sculpture is a messy art." This, s he hurled a mass of wet clay against the armature. "It is also a manly art, which probably accounts for the great number of young ladies taking it up today. Except for reliefs, sculpture is the simplest of the arts that is, up to a certain point. Beyond that point few penetrate. There aren't many great sculptors to be found in any age, though the other arts produce their quotas." Then stepping back and surveying the gray mass of clay so strikingly silhouetted against the deep background, "this is about as far as I can go until the model turns up," Mr. Young remarked, and as Mr. Pennell appeared in the wings, he concluded bitingly, "They usually are late."

Lured from his craggy heights on the Brooklyn shore, the arch enemy of bill-boards, modernism, and radio strode into view, tall, lanky, and gently disarrayed, in excellent humor, and scenting battle. Mr. Pennell was led to the model throne where he assumed the stiff and formal posture of a self-conscious sitter. Mr. Young of a self-conscious sitter. Mr. Young, eying his model eagerly for a point of attack, asked anxiously, "Can you sit back? Don't you ever sit back." To which came the reply, "Never."

As the clay under the sculptor's swift-moving fingers took on more and more the Pennell look, the distinguished model began to thaw some of his mustachios and the look of his flowing bow-tie. Gradually he warmed up and began reminiscencing over the time he sat for his daguerreotype, wearing pantalettes and a big blue sush, and his head held fast in an iron vise. The sculptor began to warm up, too, and at this juncture gave the bust a sharp crack with a little axe, just to settle the hidden armature. Pennell, who had slouched so into his chair as to be barely visible, rose with a startled exclamabetter to see what was going on. bourgeois—that pleasing game in "I think it's beginning to look just which youth has ever excelled, a game

like Chase, but I do like the mus-taches," he said. "Don't change them on any account. Is that my nose? I haven't got a bulbous nose, have 1? It's extraordinary how everyone wants me to sit for them. I might be a regular society beauty. First there was Flanagan, and then there was
Tait McKenzie, and Bartlett threatened to do me. I've been painted by a
lot of artists, too." Mr. Young complained that "they don't call sculptors artists," and Mr. Pennell consoled him by saying that he much preferred being sculpted to painted. Whereupon they declared a short recess and the bust was left to hold the attention of

the audience for awhile The Uses of Hairpins

Mr. Pennell's tie didn't seem to be juite right upon the resumption of activities, and considerable effort was spent in making it into a neat bow.
"If you tie it like that nobody will recognize you," was the sculptor's comment. The model then proceeded to inspect the portrait from all angles, to inspect the portrait from all angles, circling about and twirling his mustachios into even more imperious points. "I'll be hanged if I've got such a fat ear as that. I think that eyebrow is magnificent, though. I don't think you've got my nose yet; it's not a Roman nose, it's a real Philadelphia one. You're not going to make this bust look like the one upstairs, are you? You know I've got any amount of expressions."

Caricature was not Beardsley's strong point. But the drawing is amusing in itself, gay and nervous and expres-As the gorgeous mustaches are in danger of drooping, Mr. Pennell col-lects several hairpins from the ausive in its simple line, and jaunty in the manner in which the little round hat is set on the abundant black hair. I do not think Whistler would have minded it. Only when caricature was dience to use in pointing up the cu-Then a period of intense quiet and activity, the sculptor working fast and the model, back on the stand, sitminded it. Only when caricature was used to cast a slur upon him, only when it was as malicious and insult-ing as those afterward suppressed drawings of Du Maurier's in Trilby,

and the model, back on the stand, sitting quiet.

At last the work seemed nearly done. An hour and a half had gone by like nothing at all. The audience had hat spellbound. "Well," said Mr. Young, "it may not look much like you, and working in this bright light it will probably be all full of funny holes in the morning, but I like it anyhow."

"That's always the artist's privi-lege," remarked Mr. Pennell. "And by the way," said the somptor

"The Leaping Gazelle," From Lithograph by Jan Schonk

his right. However, what he might have thought of this caricature by

don at the time was that the carica-ture came into Mr. Walter Sickert's hands, whether given him or lent him

by Beardsley, the story does not say. Mr. Sickert had it with him, among other papers, one day and left it in

a hansom by accident, and it was never heard of again. This may be fact, it may be fiction. Mr. Walker

tells another tale. Anyway, the caricature has fortunately come to light again and in the reproduction cannot

easily disappear. It is worth pre-serving: a "human document," they

might have called it in the nineties.

the period to which it belongs.

Mr. Walker is of the opinion that

everything about Beardsley has its value. He reproduces the notice of Beardsley's birth from the London Times and a Brighton paper. He shows the house in Brighton where Beardsley first lived, also the house in London where the lives are the lives and the lives are the

Swedish Art Show Held in London

Special from Monitor Bureau London, Jan. 22

THE walls of Burlington House are covered for a month with pictures by Swedish artists. It is a retrospective show covering the years full of atmosphere and serene digni-1880-1900. I must confess to some in-fied color. That most of the work ward questioning when I entered. First, why is it that this most precious wall space in London for artists can be so generously given to work of a period not particularly brilliant, when so much work of vital interest and import to the present generation Since the invention of printing writing has fallen into decay, though in Caxton's time it was at its most flourishing period. In the year 1890 and import to the present generation Edward Johnston made an intensive is never seen there? And, secondly, was it worth while getting together this exhibition of the work of a European neighbor?

From time to time in these columns I have to lay stress on the importance of international art shows. But what Londoners want to know is not what was done in Sweden or anywhere else a half a century ago so much as what is being done abroad today. Art is a great ambassador among nations, and exhibitions of contemporary art can do nothing but foster good will and encourage understanding, two things so vitally needed In the healing of poor bruised Europe.
However, here we are book in the
Swedish late nineteenth century. Let
us see what it is like. First of all, it
is well to remember that most of the painters here represented were in their day considered revolutionaries; that

they are the pioneers in the making of Swedish art history. And then one will be able to review the works more in the light of the day in which they The promoters of the exhibition

have compiled a foreword to the cata-logue, presupposing that Londoners know nothing, or little, of Swedish art. The singular thing is that they do not know of present-day activities but of the period covered by this exhibition they are not ignorant. For it is the same story, the same move ment, the same sequence as that of France, England, and most European countries, and is summed up in the broad phrase—there is no national school here any more than elsewhere

It is only the names that are dif-ferent and we shall make a mistake if we allow our judgment to be colored too highly by the eulogy with which the Swedish author of the catalogue foreword breathes them with sup-

by Paul Manship

He refers to the period covered by the exhibition as the "second golden age," which is of French birth just like that earlier "golden age" of the eighteenth

Some of the painters foremost in some of the painters toremost in the exhibition are well known inter-nationally. Zorn has a large space devoted to him, and is substantially interesting. Carl Larssen, so well interesting. Carl Larssen, so well known for his intimate renderings of his own home life, is further under-stood by the exhibition of some of his larger decorative pieces. It struck me that beneath these works of Larssen's was a more genuine, individual, and was a more genuine, individual, and sincere emotional impulse than that beneath most of the effort exhibited. This may be personal prejudice and I am loath to cover anything I say with too much of this. But no one can look on the Larssen self-portrait and that of a child sitting on the floor without feeling the intensity and subtlety of the color scheme, the brush handling, the whole arrangement, used purely for the expression of vital, first-hand experience.

To turn from this extremely beautiful work to that of Nils Kreuger is to see how differently just as strong conviction can be translated by totally different means. He is of a most im portant group of painters, mutual friends, the other two being Karl Nordström and Richard Bergh, who worked on the west coast of Sweden, forming the school known as the Varerg school.

Kreuger's painting is decorative and he obtains his results by the most interesting technical methods, a sort of pointilism in black, turning the whole canvas into a kind of mosaic, very lively in surface quality, shown will strike the visitor by its decorative quality will be one of the outstanding points to many. And another forceful thing is the energy of it all. True, there is a sentiment approaching sentimentality, espe-cially in the work of Prince Eugene. But to allow this to cloy too much the memory would be a mistake. Like-wise it would be misleading if the ex-travagant Swedish esteem enjoyed by Bruno Liljefors became infectious. His work is accomplished, yes, but "real exploits of discovery," no. It is difficult to see the reason for the claim that he "has a refined style, in

which the influence of Japanese woodcuts is also traceable." And yet with all this I search in vain for a mention of Gustav Fjaestad in the catalogue. There are two pictures by this artist, "Hoar Frost on Ice" and "Fringe of Ice in Moonlight To me they are the most remarkable works in the exhibition, particularly the latter. Added to its the latter. Added to its amazingly true, deft, painter-like qualities is real and rare beauty. Its emotional impulse is genuine and sustained. It is imbued with poetic feeling of a high order and achieves with isingular genius exactly what it sets out to do.

In the sculptor Christian Erfksson persuades the visitor that above his

MUSEUM OF FINE ARTS

THE PAGE THE

The Boston Orchestra Carries "Sacre du Printemps" to New York

New York, Feb. 3.

A ND the good old B. S. O. did it with Russian music. Stirred up the good old town of New York—Greenwich Village, East Side, West. Side and all. Drove "Springtime" in so deep that there can be no return, I am fain to think, of winter. Christopher Street first, from the balconies of Carnegie Hall on the evening of Jan. 31, gave indications of being aroused by the strange piece of which Stravinsky is the composer. Park Avenue next, from the boxes, disclosed an anxious impulse to respond. Broadway last of all, from the parquet, shook off its inertia, and the whole house dissolved in cheers and plaudits.

That's the only right way, & fancy. Intelligence, wealth, and brass tacks should all be represented in an awakening, if any good is to eventuate. The Bostom Symphony Orchestra, to be sure, is itself 10 years behind the times in accepting "Springtime" for study and performance. But to be 10 years behind the times in accepting "Springtime" for study and performance. But to be 10 years behind the times in accepting "Springtime" for study and performance. But to be 10 years behind the times in accepting "Springtime" for study and performance. But to be 10 years behind the times in accepting "Springtime" for study and performance. But to be 10 years behind the times in accepting "Springtime" for study and performance. But to be 10 years behind here orchestrally is to be in the very forefront, so conservative and retrogressive have matters become.

A Great Artistic Maulfestation

Who would have thought that Pierre

orchestral Society and the American Orchestral Society. Ernest Schelling conducting, at Æolian Hall, on the afternoon of Jan. 28. The parts of the program that I heard were the Chopin military polonaise, arranged by Glazounoff, the Bach air on the G string, G. Scipione, soloist, and the Rossini "William Tell" overture. Mr. Schelling talked on the program, and showed on a screen portraits of the composers and pictures of the orchestral instruments. He impressed me as having thoroughly made his preparations and as knowing how to handle the technicalities of his task. Children were present in large numbers, many attending in classes; and I am sure they found the matinée entirely to their liking. For children who have a curiosity about music and who are interested to explore a field of the fancy which corresponds to that of juvenile reading, I should warmly recommend these concerts, or any concerts of the same sort, wherever they may be given.

A Great Artistic Manifestation Who would have thought that Pierre onteux, who visited the United States Monteux, who visited the United States in war time with the Russian Ballet, would ever become conductor of the most famous of American symphonic institutions? The only thing he knew how to do was to interpret freakish Russian dance music. Surely, either the orchestra of the Bostonians must have suffered a terrible fall, or else he must have taken an astonishing rise. The whole difficulty, I believe, is cleared up as far as New Yorkers are concerned. They, thanks to the ready discernment of their Villagers in the top of the auditorium the other night, realized that the Russian dance music, as summed up in Stravingky's orchestral picture, is one of the great attistic manifestations of the present era. Mr. Monteux came to 'America with the musical twentieth century in his portfolio. He wanted a perfectly disciplined, keen-minded group of players wherewith to set it forth. The Bostonians provided him with such a group; and when he was ready, he opened the portfolio out. in war time with the Russian Ballet,

tonians provided him with such a group; and when he was ready, he opened the portfolio out.

So there, to my observation, is the story. My hope is, that before long there will be started here an orchestra that will perform the music of modern masters as soon as written, that these 10-year delays may be no longer a reproach. Requirements, I should imagine, are at least two: A body of musicians willing to study new scores with enthusiasm and rehearse them without objection, and a conductor who is familiar with contemporary movements and interested in them.

Mr. Mengelberg's Return

Mr. Mengelberg's Return

Interested in them.

Mr. Mengelberg's Return

The more I consider the orchestral problem in the United States, the more I think music patrons waste their money and the money of subscribers and ticket purchasers, in setting up concert-establishments of from 80 to 100 men and putting conductors of the second line in charge of them. They too often judge a conductor, I surmise, on his abilities as an organizer; but the only question to be taken into account, I feel certain, is his power as an interpreter. Organization may be the whole battle in business, but it is only half of it in music. Holding the conviction that I do, I do not need to say that I greatly enjoyed the first program that Willem Mengelberg presented on his return to this city to take the Philharmonic Orchestra in hand. Whatever works he had chosen to give at his concert, at the Metropolitan Opera House on the night of Jan. 29, I know I should have enjoyed listening to their performance, even if they had been all by his favorite composer. Mahler. Those that I had the good fortune to hear were the "Anacreon" overture of Cherubini, the fifth symphony of Beethoven and the "Tannhäuser" overture of Wagner. Charm, vigor and clearness characterize Mr. Mengelberg's conducting, apeaking musically; and a sort of sane contentment and wholesome elation mark it, speaking extra-musically. The sound is there that signifes a great master of the baton, and then the feeling is there that inde explanation in the man himself, as differentiated from other artistic individualities of the first class.

Besthoven, whose music has been a special object of cultivation by the New York Symphony Orchestra, Walter Damrosch, conductor, this winter was represented at a concert in Carnegie Hall on the evening of Feb. 1 by the ninth symphony; also by a canon for six volces, arranged by Walter Damrosch for solo volces and chorus, and by the sonata for piano, op. 111. The chorus of the New York Oratorio Society and Ruth Rodgers, Mabel Ritch, Nevada van der Veer, Richard Crooks, Frederic Baer, and Fred Patton assisted in the vocal numbers. Harold Bauer played the sonata. Albert Stoessel, conductor of the Oratorio Society, directed the singers in the little plece in canon form. The honors of the meeting went, as they always do, to Mr. Damrosch, as maker of the program. How did he ever think of the last sonata and the last symphony as likely to go well together? Well, he is always hitting upon happy groupings of pleces. He usually has the right idea about assisting artists, too. Mr. Bauer was just the planist the evening demanded. Now, further than this I am not going. To make ecstatic comment Mw Damrosch and Beethoven

SELWYN S The FOOL

Written by CHANNING POLLOCK Staged by FRANK REICHER DIRECT FROM 400 PERFORMANCES IN NEW YORK CITY 5 Companies Touring America "A powerful play dealing with the two-nost important subjects in the world." Frank Lea Short in The Christian Science

presenting her songs precisely as she herself felt them; and Mme. Ney, in turn, struck me as playing the piano part exactly as she thought it ought to go, the power and quality of the voice considered. The result was a true chamber music ensemble, which is a different thing altogether from a song recital worked out as an exploit in concert strategy by the singer as battleline and the accompanist as headquarters. While I was present, Mme. Freund sung from the works of Brahms, Debussy and Moussorgsky. Mme. Ney played as a solo number the Beethoven sonate in C sharp minor, op. 27.

Mme. Gitta Gradova, the planist, seems to me a performer of the highest promise. She appeared at the Town Hall on the afternoon of Jan. 28, and I was fortunate enough to hear her in short pieces by Blanchet, Goossens and Ravel and in a longer one, the F sharp minor polonaise, op. 44; by Chopin. Works that are compact in form and modern in style she masters well, I should say. Those built on broad modern in style she masters well. I should say. Those built on broad foundations and in the classic manner

foundations and in the classic manner she will soon enough know how to set before listeners effectively, I am sure. Mme. Maria Ivogun, the soprano, appeared in Æollan Hall on the afternoon of Feb. 2, with Seidler Winkler, pianist, and J. Henri Bove, flutist, assisting. While not a singer of great power or unusual expressiveness, she is one of the finest schooling and technical command. Handel, Bach, Schubert, Josten, and Kreisler-Winkler were the names on the program standing opposite the titles of the songs I heard.

The Taft School Glee Club seemed

The Taft School Glee Club seeme to me to give an extraordinarily good account of itself in a contest of boys' plore a field of the fancy which corresponds to that of juvenile reading. I should warmly recommend these concerts or any concerts of the same sort, wherever they may be given.

...Mme. Freund and Mme. Ney

A recital which I found profitable was given by Mme. Marya Freund, soprane, and Mme. Elly Ney, planist, in Æolian Hall, on the afternoon of Jan.

29. To me, it is always a greater pleasure to hear a singer accompanied by a planist of regular schooling and standing than by a merely professional "coach." Mme. Freund impressed me as

"Moonlight" in New York

NEW YORK, Feb. 2-Longacre Theater-Beginning Jan. 30, L. Lawrence Weber presents the musical comedy, "Moonlight." Book by William Le Baron; lyrics by William Friedlander; Baron; lyrics by William Friedlander; music by Con Conrad; dances and en-sembles by Larry Ceballos; orchestra conducted by Hilding Anderson; pro-duced under the personal direction of William B. Friedlander. The cast:

William B. Friedinder. The cast:
Jimmy Farnaworth. Mr. Louis Simon
George Van Horne. Mr. Gien Dale
Betty Duncan. Miss Maxine Brown
Louise Endicott. Miss Allyn King
Suzanne Franklyn. Miss Eisa Ersi
Brooks. Mr. Robinson Newbold

the effect that a certain girl will fall in love with any man if conditions such as soft music, moonlight, etc., are pro-vided. 'The electrician then experiences the romantic atmosphere and environ-ment that has been so carefully ar-

ranged.

The music of "Moonlight" is, in the main, catchy, but it is the catchiness of remembering something similar heard

be playing such parts as Petruchio, Mercutio, Henry V and Charles Surface frolicking around the stage doing step dancing and singing popular songs. Per-haps this new field of endeavor on his part will convince some manager that part will convince some manager that part will convince some manager that Ernest Glendinning can do almost any kind of acting. When his real opportunity comes, he will be found possessing the requisite qualities for a sensing star.

F. L. S.

artists and art schools in Japan. artists and art schools in Japan. Nearly 200 oil and water-color paintings show the Oriental artist expressing himself in both the traditional mode of the East and in the Occidental manner. This exhibition is intended for a Boston showing, where Mr. Yoshida's work is already known through examples in the Boston Museum of Fine Arts.

In another gallery the Society of Illustrators is holding its annual exhibition, which is packed with interesting

tion, which is packed with interesting numbers. Two lithographs by George numbers. Two lithographs by George Bellows must be given first place; "The Garden of Growth" and "The Irish Fair" are splendidly composed, and filled with dramatic and imaginative touches. Charles Dana Gibson, Dean Cornwell, James M. Flagg, James E. Allen, C. B. Falls, C. Allan Gilbert, Hugh Ferris, Ethel Plummer, and J. Alonzo Williams are other well-known contributors.

remembering something similar heard before.

Maxine Brown, Allyn King, Elsa Ersi and Helen O'Shea, all have pretty good voices and do the conventional parts assigned them as well as might be expected. Louis Simon is popular with the audience in the leading comedy rôle. The talented and accomplished Erneat Glendinning plays the part of the electrician and brings high comedy distinction to the performance. It is, however, a bit strange to see one of the cleverest American actors, who should

the new champion is forging steadily ahead on its triumphant course, with seats selling eight weeks in advance, and no sign of a decrease in public interest. This story of American pioneering days three-quarters of a century ago, has a universul appeal, which accounts for the successful presentation of this picture, not only throughout the United States, but in various capitals of Europe and Australasia. There is little doubt but that the entire civilized world will be given an opportunity to see this story unfold before long, and that its message of liberty and courage and the message of liberty and courage and the glowing picture of a nation in the mak-ing, will prove an inspiration to many others.

right time.

Tanner, Sandzen and Folinsbee

In New York Exhibitions

Special from Monitor Special

NEW YORK, Feb. 2—The first of a series of one-man shows at the Grand Central Arf Galleries is arranged in honor of Henry O. Tanner, the well-known American painter. His religious compositions have long occupied a unique place in modern art, because of their individual and intrinsic appeal and because this artist is one of the Mosero race today. His long residence in Paris has made his work something of a rarity in recent American exhibitions, and the score of paintings chosen to represent him here reveal his talents in a most becoming way. A sufficient technique enables Mr. Tanner to achieve his intended effects, which are primarily, concerned with mood and content. He aims always to put the Biblical incident in its original setting and to keep it free from any personal appeal. Something hushed and almost reverential tinges these canvases, something beside the peculiar billush tonsility that is so typically his and that gives according the first of the second time Birger Sandzén the first of the second time Birger Sandzén the beings his brightly colored, briskly that is brightly colored, briskly the brings his brightly colored, briskly the brings his brightly colored, briskly brings his brightly

achieve his intended effects, which are, primarily, concerned with mood and content. He aims always to put the Biblical incident in its original setting and to keep it free from any personal appeal. Something hushed and almost reverential tinges these canvases, something beside the peculiar bluish tonality that is so typically his and that gives a feeling of autumnal haze to these acenes in the life of the great Nazarene. The Flight. The Lost Sheep and the winder of the Bight of the Great Nazarene in the Hight of the great Nazarene. The Flight. The Lost Sheep and the chosen as the most successful canvases in the exhibition.

For the second time Birger Sandzén brings his brightly colored, briskly brushed-in impressions of the west to the Babcock Galleries. Again he leaves his home in Lindsborg, Kan. In his quest for a wider public, although year by year he has come to be more widely known throughout the United States as one of the artistic pioneers of the west. Called in 1834 to occupy a teaching post at Bethany College, Lindsborg, he left his native Sweden for the New World. With but two European interruptions, he has continued to dwell in the happy hunting grounds of the west all this while, and to develop an art that is as breezy, expansive and unconventional as his surroundings. They are overbluif, perhaps, and untempered to sophisticated tastes; yet the appeal of these landscapes is undentable. His lithographs and woodcuts are splendidly vigorous and decorative, the range of black and white, suiting his talents more than the color harmonies he employs in his larger work. Two dry-points, a recent departure, are included in the exhibition and indicate a period of advancement for Mr. Sandzen's art, if these plates be correctly interpreted. The natural delicacy of the etched line, coupled with his natural impetuosity of stroke and breath of vision promise refinement and compression, two qualities that are never amiss in any art. His artistic education was

and public nouses, misty streets, imposing law courts and the prisons is the
setting for this present piece. The atsuperpresent piece. The ondon.

The cast is equally effective in staynot yet by any means.

London Art Notes

London, Midland, and Scottish Rallway had commissioned certain R. R. F. Railway had commissioned certain R. A.'s to design posters to advertise it. I ble barg for one was doubtful about the success of the innovation. I feared that the R. A.'s would produce academy pictures absolutely unrelated to the medium they were to be reproduced in and used for.

In art circles of a linear circles.

democratic price, and the really a purse is best catered for by the ored woodcut. Oil painting will proored woodcut. Oil painting will probably continue to depend or its economic position upon the public gallery and the private patron; it will not gain by being brought to the bargain counter.

It is also a little unfortunate, for Major Lessgre's purpose, that the majority of the pictures should be worth more than the standard price; for the

jority of the pictures should be worth more than the standard price; for the best work shown here 30 guineas is a reward misleading to the public and unfair to the artist. Mr. Ethelbert White, for instance, is far too modest about his "Hurdlers," which is a really important example of his work. The

SAVAGE ARMS EARNINGS Savage Arms EARNINGS
Savage Arms earnings after taxes in
1922 were in excess of \$400,000, equal to
between \$4.50 and \$5 a share on outstanding 77.480 common shares after preferred
dividends. It is understood, good-sized
charge-offs were made for the new electrical household department. In 1922
Savage had a deficit of \$185,165, and in
1921 \$1.234,011. In 1919 profits were \$1,512,494.

TEXAS GULF SULPHUR PROFITS
Texas Gulf Sulphur Company for the
year ended Dec. 31, 1923, reports net income of \$4.737.921, after expenses and
federal taxes, equal to \$7.45 a share on
outstanding 635.000 shares of stock, compared with \$3.852,162, or \$6.06 a share, in TEXAS GULF SULPHUR PROFITS

National Licorice total assets Poc. 31, 1923, were \$1,809,398, compared with \$193,097 precious year.

CORN AND WHEAT SHOW ADVANCING TREND LAST WEEK

Heavy Volume of Trading-Accumulation Going On-May Reduce Acreage

CHICAGO, Feb .4 (Special)—Wheat went into the lead in trade volume on the Board of Trade last week, with eastern and southern buying giving the market renewed impetus. Prices hard-ened gradually with the biggest gains made in a long time. May wheat went to the highest point since last Novem ber, while buying of the July and Sep tember forced those months to the highest levels on the crop.

mission house accumulation has Commission house accumulation has been going on for some weeks, and the slack is now pretty well out of the market. May is affected by the small receipts and decreasing stocks, while there was active buying, some of it for foreign account, in the new crop months, based on the exposed condition of the winter wheat and the expectation of a decreased acreage of spring wheat.

Government Aid Possible Reports from the northwest are to the effect that the wheat acreage will be cut down whether or not the Government gives the producer aid in

chearances from North America were smaller, with a shortage in ocean tonnage at the moment. Plate and Australian shipments were liberal, although Australia put affoat less than the previous week.

In the European. The Indian worked more cheaply and the European had more cheaply and the European had more cheaply and the European. The Indian worked with a more cheaply and the European. The Indian worked worked more cheaply and the European. The Indian worked worked work work with a supplier of the supplier

Corn Makes New High

Corn for May delivery made a new of the previous week. Primary receipts the previous week. Primary receipts corn were much larger, and were siderably more than a year ago for corresponding period. In spite of bigger movement and the heavy al selling of corn in the pit, price lines were small and did not last

long.

Strength in wheat helped corn a good deal, and the trade also was impressed by the steadiness of the cash corn markets under the increased offerings. Insertior reports indicate feeders continue to buy freely at higher relative prices in Chicago houses are bidding.

Considerable corn is coming on consignment, but farm deliveries have been cut down by bad weather. The extremely mild weather is causing support in wheat, and it also tends to reduce country marketings, as roads are

port in wheat, and it also tends to reduce country marketings, as roads are almost impassable in some sections.

May and July oats were advanced into new high ground_vith no evidence of any unfoading by leading holders. The cash situation in oats is regarded as exceptionally strong, due to the enormous consumption up to this time. This has afforded a basis for active buying, and this accumulation is now beginning to tell on prices.

LABOR PRESENTS ITS

irrespective of sex, under the Minimum Wage Act.

An enactment of legislation making compulsory the insertion of a fair wage clause in all contracts given by the Government or any works alded by Government funds was also asked; that immediate steps be taken to relieve existing unemployment; amendment to the Mothers Allowance Act to include widows with one child; proportional representation; appointment of enough inspectors so that the Factory Act can be properly enforced, in planing mills, woodworking plants, and other factories.

ANDAMAN ISLAND SETTLERS SUCCEED

Colonel Gidney Receives Memento From Pioneers, Who Ask Further Government Aid

CALCUTTA, Jan. 2 (Special Corre-

spondence)-Initial reports of the Andaman Islands venture initiated by the Anglo-Indian community are favorable, but it must be pointed out that it is but an initial venture at present undertaken by only 12 men. It is, therefore, too early to anticipate that the Andaman Islands will afford a home and a means of livelihood to

ernment gives the producer aid in changing his farming operations to a more diversified basis. Banking interests and commercial concerns are working to the same end.

There is a possibility of Government aid as the Senate has approved the 575,000,000 fund for the aid of agriculturists in the northwest. Whether this becomes a law or not the low prices and small yields of wheat have taught the spring wheat farmers a lesson.

Foreign markets as well as Winningeg have shown a generally steady tone. Clearances from North America were smaller, with a shortage in ocean ton-

The first batch of 12 men are said to have cleared in the first week 300 high on the crop, but the deferred feet of jungle land and are tackling months did not reach the high points further extensions of their 30 acres of cleared land with the greatest en-thusiasm. Colonel Gidney, the leader of the community in India, recently received as a momento the first tin of coffee berries sent by the colonists. He naturally prized it very highly. By the end of January the colonists

hope to have plucked over 500 pounds, the local price of the berries being 12 annas (a shilling) per pound. In housing accommodation the settlers who have taken over old barracks, 300 feet long and 30 feet wide, are well off, or they also are in their water supply as they also are in their water supply and manual labor. The Anglo-Indian settlers are receiving their opportunity because the Andaman Islands, as a convict settle-

ment, are being given up by the Gov-ernment of India. It is a brave ven-ture on the part of this community, and it must be remembered that the men sent up to the present were made up of picked recruits. In some measure they are already able to outline their future policy as regards crops.

LABOR PRESENTS ITS
REQUESTS TO ONTARIO

The settlers consider large scale operations alone will pay. They propose that a sum of from 10,000 rupees to 15,000 rupees should be remitted, and more settlers sent. They TORONTO, Ont., Jan. 31 (Special Correspondence)—The Trades and Labor Correspondence)—The Trades and Labor Congress of Canada, and the Labor Educational Association of Canada, laid before the Ontario Government yesterday, several legislative requests. Summarized the requests submitted were as follows: Enactment of an eight-hour day law for industrial and commercial undertakings; legislation of settlers are receiving a cordial thour day law for industrial and mercial undertakings: legislation the further protection of women children in industry and agrition resident at Port Blair, where rail undertakings: co-operation there is no lack of social amenities.

SIR H. BRADDON TELLS AUSTRALIA "AMERICA IS MISUNDERSTOOD"

Indorses Sir P. Gibbs: "Britain and America Must Be Friends, Unless the Folly of Men Is Beyond Belief

(Special Correspondence)—The impor-tance of the two great English-speaking countries of the world-Britain and America—being in unity, and the need for America's attitude being understood, were questions dealt with by Sir Henry Braddon, formerly Austra-lian Ambassador to Washington, in a

similarly. "But," insisted the speaker, in—and whole-heartedly.
"if this tortured world is to recover, patience, skill, and wisdom will be Mr. Wilson for his action, this time of the English-speaking race-Britain

Duty to Help Europe

Sir Henry urged: "It is their duty to do so, quite apart from inclination; but they can't do so while America is misunderstood." He explained Amer-ica's points of view and made it emphatic that the arguments he was going to advance were identical with those of the prominent men from Great Britain—representing army, navy, food control, law—who went over to assist the United States when she entered the war. He had been in America nine critical months, from September, 1918, to June, 1919, and now spoke as he felt.

The speaker lamented that the re-turn to peace and industry, fondly hoped for when the war ceased, had noped for when the war ceased, had not been realized. Outside of Europe, the two peoples concerned in its welfare were Great Britain and the United States. While he was in the United States, the commercial men there talked to the former Australian Ambassador "with remarkable free-Ambassador "with remarkable freedom," and he saw, perhaps more clearly than most people in Australia, how easy it is to misunderstand America's attitude throughout the before the friends unless the folly of man is two years and a half when Great beyond belief,"

"If they work together, concluded the Land of the Thousand Lakes," Since the first visited Finland, 45 years ago, the country, he said, had developed in a most extraordinary way. No country two years and a half when Great beyond belief,"

PERTH, Western Australia, Dec. 27 Britain was eaten with anxiety, and still America lingered outside

war zone. America Not a Signatory

After referring to America's delay in entering the war, Sir Henry Brad-don said that nation, technically, had no cause of war because she was not striking address to a large number of members of the Western Australian President Wilson was almost fanatically pacificist, and took no advice fron Sir Henry prefaced his address by any man. When Germany intensified stating that he had been accused on his return to Australia of having become Americanized. No doubt, men from Great Britain had been accused the Allied cause, and America came in the state of the Allied cause, and America came

required before Europe can be put after the war. He said when, in 1918, on its feet. And the two peoples who a majority of Republicans were recan help are those two great branches turned to Congress, Wilson went over to Paris in connection with the Peace Treaty, although, under the British Constitution, he would not have remained in power for 10 minutes longer. Sir Henry considers that. at the present time. America is ing toward the League of Nations. on every humanitarian committee of which she had sympathetic observers. Australia ought not to forget the part America had played in the Naval Dis-armament Conference, and the further fact that she had spent \$850,000,000 in the relief of European distress. Sir Henry Braddon thinks humanitarian

motives alone will draw America into the League of Nations Sir Henry expressed the opinion that the moment they understood on another, and the two English-speak-ing nations realized they were rela-tives, and linked up, it would be a tremendous day for the world, and its peace. Diplomatic action was too cold and polite to lend itself to the revela tion of the essential character of these

two great peoples.
"If they work together," concluded

with other provinces so as to make possible ratification by Canada of these draft conventions and recommendations; bringing of all young persons, transportive of sex, under the Minimum Wage Act. CHIEF EVENTS IN **BRITISH FINANCE**

Factors for Optimism Gain Ascendency in the Market-New Capital Issues

By Cable from Monitor Bureau LONDON, Feb. 7—The strength which became evident on the stock exchange here a week ago has since been fully maintained, and the royal exchange has hummed with eager buyers daily. The advances recorded were not always large. The five per cent War Loan, for example, has risen only from par, at which it closed a week ago, to 100 5-16 Saturday. The upward tendency, however, has been eneral.

general.

Even the British railway stocks, which fell during the locomotive strike here, have since regained their previous position. Great Western is now 109, compared with 107 at the beginning of the year. Midland & Scottish is 104%, compared with 103, and this although the previous week's traffic returns on the last named railway was turns on the last named railway wa £500,000 worse than in the corresponding period last year.

Factors Inducing Optimism

Exchanges are also better. Sterling dollar values have improved to 4.32 the slump in French francs has been temporarily arrested and is now around 92. The last-named level is the more remarkable, since little confidenc is yet felt here in the adequacy of French proposals for increasing revenue and reducing expenditure. Their deci-sion announced last week for an all-

sion announced last week for an allround increase in French railway fares
can do little more than cover the deficit
now disclosed of 1,500,000,000 in the
working of these lines last year.

The fact is, however, that pessimism
has been overdone, and now that the
German reparations situation is not
quite so gloomy and the scare at the
Labor Government's accession to office
here has been discounted, the pendulum
is swinging the other way. There is no
other outstanding feature to account
for what has occurred, as impending
threats of renewed dockers' and miners'
wage disputes largely counterweigh wage disputes largely counterweigh more cheerful reports from the princi-pal trade centers, Manchester alone ex-

pal trade centers, Manchester alone excepted.

Presiding at the annual meeting of the Bank of Liverpool and Martin here Jan. 36, W. R. Glazebrook pointed out the gravity of the position regarding raw material for British cotton mills.

Beginning in 1913, he said Liverpool and Manchester had in hand 1,250,000 bales of cotton, whereas now the stock is less than 500,000 bales.

Meetings and New Issues

Notable among the company meetthe National Mutual Lafe Assurance Company at which John Maynard Keynes presiding, announced what he described as "one of the largest surpluses in proportion to liabilities in the history of life assurance, namely £912,-000, being 28.8 per cent of liabilities. Another cheerful report was that of the British Investment Trust Company, the British Investment Trust Company, which increased its revenue from £329,. 600 to £350,000, and declared a final dividend of 10 per cent. making 17 per cent in all on the deferred stock.

Loans issued here last week include an issue of £3,000,000 Rhodesian Government 5 per cent stock at 98, repayable in 1934 to 1947; also £200,000 in Metropolitan Trust Company shares, in £10 shares at £16 a share, being just below the present market value of the existing capital. Issues expected include the League of Nations Hungarian loan, also fresh Australian Government borrowings and £140,000 in ordinary £1 shares at par in Tavoy Tin Dredging Corporation.

DR. BENES URGES DEBT SETTLEMENT

Reparations and Interallied Money Problems Inseparable

Special from Monitor Bureau

LONDON, Jan. 22 — Dr. Eduard

enès, Czechoslovak Minter. Benes, Czechoslovak Minister of Foreign Affairs, in an article written

for a recent Prager Press, says: The settlement of the reparations question is inseparable from the solution of the question of interallied debts. The latter is a matter which essentially concerns the United States, a power which cannot, prior to the next presidential elections, take decisive measures. Let us work, therefore, to settle the question of European debts, and reserve for the future the settlement of the debts to America. America.

Dr. Benès, in another part of thearticle, writes:

article, writes:

For the last four years the reparations problem has been the object of discussions. Will the year 1924 bring a final happy solution to it? That is doubtful. But it can and probably will be a year-during which a pre-liminary provisional solution will be discovered. A Labor Government in Great Britain, the general election in France, the recognition of Russia and the probable elections in Germany, are factors which will oblige Europe, at the very least, to find a provisional solution, tending to diminish the tension between France and Germany. We should desire it from the bottom of our hearts, and we must exert all our efforts in order to bring about this result.

With regard to the Soviet Govern-

With regard to the Soviet Government, Dr. Benes declared:

ment, Dr. Benes declared:

For the last seven years the whole world has been asking what will be the solution of the Russian question. Will the Russian problem be solved by the recognition de jure of Soviet Russia? No: it is only then that the real political, commercial, and financial difficulties in regard to the Russian problem will commence. That will be the delicate spot in the Russian question in 1924. But let us prepare ourselves to surmount those ourselves to surmount those

FINLAND MAKING **GREAT PROGRESS**

EDINBURGH, Jan. 20 (Special Corence)-Lord Salvesen, the president of the Royal Scottish Geographical Society, addressed the members in Edinburgh on the subject of "Finland.

strides. When he first went to Hel-singfors, it was a town of not more than 20,000. Now it was one of the most beautiful cities in the north of Europe and had 200,000 inhabitants.

and had 200,000 inhabitants.

A notable feature of the country, from a geographical point of view, was the extraordinary prevalence of lakes. One-eighth of the country consisted of fresh water, Its great poet had called it, "The Land of the Thousand Lakes"—10,000 or 20,000 would be much nearer the truth. A thousand was a mere poetical figure of speech. There was no stronger race in Europe than the Finns, and they were showing a remarkable capacity for athletic sports.

SIR HENRY WHEELER CONSIDERS SEPARATE SEAPORT FOR ORISSA

CALCUTTA. Jan. 1 (Special Correspondence)-Sir Henry Wheeler, Governor of Bibar and Orissa, in visiting the latter Province (on the easter coast of India and southwest of Calcutta) referred recently to the proposa to establish a suitable seaport on the Orissa coast, which should directly serve the Province. False Point has been ruled out by the experts as prohibitive in expense, and unlikely to be-

hibitive in expense, and unlikely to become a commercial proposition.

Dhamra has been suggested as an alternative site, and Sir Henry Wheelerhas visited the place, which at the present moment is being resurveyed. The
Governor is of opinion that the possibilities here are more hopeful and that
a railway to Dhamra would avoid the
difficulties of drainage which bridging
a line by an alternative route, such as
that from Bhadralok to Chandbali,
would encounter.

would encounter.

Consultations are taking place with the Bengal Nagpur Rallway. General business opinion is certainly to the effect that to build a separate port for Orissa would be a sheer waste of money.

Early English Poetry in Musical Setting

that famous sonnet beginning the troubadours and all they had achieved for France. In music and and streed for France. In music and and streed for France in music and and streed for France in music and and streed for France. In music and and streed for music, both in those most beautiful in the world, has been very closely rainted to succeed to music, both in those most account of the surface of the one are is complete in one counideration of the indeed the very first fragment is written in the English tongue, it was just struggling into exp., is a record of music in the conditions of the condition of the condition in the condition of the condition of the indeed the very first fragment is written in the English tongue, it was just struggling into exp., is a record of music in the condition of the condition of the condition of the condition of the indeed the very first fragment is written in the English tongue, it was just struggling into exp., is a record of music in the condition of the condition of the condition of the indeed the very first fragment is written in the English tongue, it was just struggling into exp., is a record of music in the condition of the condition of the condition of the indeed the very first fragment is written in the English tongue, it was just struggling into expect the condition of the indeed the very first fragment is versification.

Godric, after wandering over land and sure of the national spirits. Any past attempt at versification.

Godric, after wandering over land and sure of the national spirits. Any past attempt at versification.

Godric, after wandering over land and streed the national spirits. Any and streed to music, both in those and streed to music, both in those and streed to music, both in these addicted to music, both in these addicted to music, both in the condition of the interest of the national spirits. Any and streed t of song written in the English tongue, when it was just struggling into ex-istence, is a record of music in the

"Merrie sungen the monks binnen Ely Canute king rew thereby Roweth knightes near the land And hear we these monkes sang."

while the second earliest examples of English verse, the songs that Godric the Hermit made, have a quaint musical accompaniment and seem to have been meant to be sung by the foresters in the woods of Finchsie. These songs had a second get of words in Latin running parallel to the English ones; but there is little doubt that the harp and pipe-were used to accompany other songs of a rader, worldier sort, and it is possible the old singing games, still loved by English country children, are relice of the dances and songs their remote ancestors used on such occasions. The written manuscripts which have come down to us contain, however, only poems which are intensely serious, verses made by preachers for the edification of the people. The author of one, such, "Handlyng Sin," tells us that he meant it to teach "simple men who stranger English cannot ken."

The Queen was in the garden eating bread and honey,"

but which we might better esteem as an historic effort in prosody, destined in years to come to develop into the tovely metre used by Rossetti in "The Blessed Damozel."

"The sun was gone now; the curled moon was like a little feather. Fluttering far down the gulf; and new she spoke through the still weather.

Her voice was like the voice the stars had when they sang together."

From the north country, too, came Richard Rolle of Hampole, whose mystical poem beginning.

"My truest treasure so traitorly taken,"

anticipates the subtle music of Swinburne in "Itylus"; while Coleridge a who stranger English cannot ken. . . .

It is the music of Prosody, that subtle lovely music in which English poets most excel, that we find be-ginning in twelfth-century yerse. First one poet and then another tries a new measure, but the earliest of these extant are of such perfect these extant are of such perfect rhyme arrangement and are so much in the spirit of modern English verse as to show that many earlier endeavors had been made. These are long poems meant to be recited or aung, and nearly all connected with the solemn music of the church, moral odes and holy songs, scraps of history and rhymed sermons. Thomas of Hales comes at the end of a long

The Queen was in the garden eating bread and honey."

anticipates the subtle music of Swin-burne in "Itylus"; while Coleridge a burne in "Itylus"; while Coleridge a Cristabel metre comes from a little further south and was used by an unknown author to tell the story of Genesis and Exodus, for unlearned

So first one district in England and then another awakes to the charm of poetry, like the lady Cristabel:

"To bear the harp and learn the song And clothe itself in solemn vest And over the mountains haste along."

in the solemn music of moral odes and holy songs, scraps history and rhymed sermons. Thomas de Hales comes at the end of a long list of Englishmen who all attempted to produce something beautiful for poetic taste, which enabled him not only to experiment in verse but to only to experiment in verse but to only to experiment in verse but to choose as the subject of his experiments those beautiful Celtic legends that have given pleasure to the world ever since. "The Brut," Layamon's great poem of thirty-two thousand lines, was influenced by French fashions in verse, but how much the poet ions in verse, but how much the poet owed, too, to his proximity to Wales it is difficult to estimate: his intimacy with Arthurian stories not found ers of former cities: in the fields, as in the French books he consulted, he treads slowly after his oxen, the makes it certain that he drew upon peasant may at any moment turn up makes it certain that he drew upon the traditional lore of his Welsh-speaking friends. His nearness to the border makes it quite possible that he had attended the Elsteddfodau, which flourished even in those far away days, and offered prizes for lyric noams doubtless some of them lyric poems, doubtless some of them written about the ancient Celtic heroes, Gawaine, or Arthur, or Percival, just as they are still written to-

Gerald, the Welshman, gives us earthen vases of two thousand years glowing descriptions of the singing ago, and set them all a-row, blooming and reciting of verse to be heard in with geraniums and carnations, upon his native land, where every house had its harp and every maiden could folk (who lived like birds in the woodlands, in houses built of wattles, meant to last only for one year) sang wonderful part songs and united into traveling choirs to visit distant values.

In o way strange to him. He may be komendheid gedaan kan worden, is the goede—kan de harmonie hersteld gemaakt. En op het laatst an active-minded and practical son of the litaly of 1924; but he will use these ontvangen en hartelijk welkom to Johannes hoe hij een stem hoorde die zeide: "Zie, ik sta aan de deur en ik leys where musical contests word. leys where musical contests were held. Welsh poetry, being such a marvel of dexterity with its inner and whose ancestors have through many outer rhymes and wealth of metres. may well have influenced the poetry of the border. At any rate, Layamon marked the end of the experimental stage in English verse; after his time we may say men wrote it much as they write today, whilst before, they may hardly have been said to have aban-

In gathering good things from here and there and everywhere, the poets of the twelfth and thirteenth centuries laid the foundation of that great treasure of the English-speaking peoples, their glorious lyric poetry, and made all ready for its development in

future ages.
Anthologies of verse often give the little poem

"Sumer is y cumen' in Lhude sing cuccu

as the first English lyric, and it is so. if we begin our study at the end of the thirteenth century, but even in "The Cuckoo Song" we have not got away from our theme of music and poetry, for this pretty little lyric has a musical accompaniment which is celebrated as the first example of a perfect English canon. G. T.

Tracks

Written for The Christian Science Monito The furry things that come and go Leave tracks upon the white of snow The dance of mice is written there. The stealth of fox, the leap of hare. The pointed hoofs of stag and doe Are printed on the tell-tale snow

But the winging things of footless air, They leave no tracks for those who stare.
The sunset fades and leaves a trace

No more than wind upon the place. And clouds that rest on hills' broad At morning go and leave no tracks.

H. W. Melvin.

> The Rider Written for The Christian Science Monitor

On his charger bold Like the knights of old In bright array.
With flashing eye He waved goodby And rode away. There were none to know, Who watched him go, 'Twas only I That dared guess why. Who loved him best.

For what cared I. That of wood your steed? In your chubby hand Was a simple reed? From the sun-gold skies, Had caught its hue.

Let them think it play. We knew some day You would make it true.

The years are gone Small son of mine. And you away.

Do you follow the gleam
In the golden beam Ah, the child you were still hold close Like the knights of old

For the old world needs And vision fine. So hold them tight
Those gleams of light,
Oh son of mine. And the lance you bear Is your mother's prayer.
That the light divine Shall light the way Oh son of mine. Fredda R. Gratke.

"Don Quixote" Shakespeare himself has written othing so full of the diverse stuff of experience, so quietly and steadily illuminated by gentle wisdom, so openeyed in discerning the strength of the world: and Shakespeare himself is not more courageous in championing the rights of the gallant heart. . . . How is it that at every step of our journey we come to like the Don better, until yesterday is vital, beautiful in itself:
put the two in conjunction and you
get a combination which detracts from
neither and enriches both. Yes, PlaidFrock for me is a symbol as he trots
forward, from the dim archway, which
survives as a vestige of the builders
and warriors of Italy's splendid past.

THE CHRISTIAN SCIENCE MONITOR

"First the blade, then the ear, then the full grain in the ear"

BOSTON, MONDAY, FEBRUARY 4, 1924

EDITORIALS

A GREAT man has fallen in Israel. The acerbities of party strife, the jealousies bred of the struggle for peace, the personal antagonisms,

Woodrow Wilson

amounting in many cases to hatred, which grew out of the sharp conflict of opposing wills, have done much to obscure the essential greatness of Woodrow Wilson as a statesman. Politi-cal he was not. The elevated

station he attained was not won for him by his own partisan astuteness: a man of vision, of political insight, of high ambition, he was what the politicians who forced him to the front thought would prove a serviceable figure for them to install in power. His selection for the governorship of New Jersey and his later election to the presidency of the United States were both due less to his own efforts than to those of enthusiastic and admiring friends, and even more to the clever partisan activity of practical politicians, who thought that all they had to do was to make him President and they would control him.

In this latter anticipation they were sorely deceived. President Wilson developed a will of his own, a quality of personal domination which led him to ride roughshod over the politicians who had put him in office. In so doing he even, with apparently equal heartlessness, trod upon the friends who had helped him in his advancement. The weakness of his career was this apparent lack of recognition of services rendered him, frequently through wholly unselfish devotion. "Faithful are the wounds of a friend." The Scripture phrase must frequently occur to many of those whose devotion to the President who has now passed on seemed to them to be rewarded only by a demand from him for even more sacrifice.

In history, which is yet to be written, Woodrow Wilson will be set down as the foremost champion of that form of co-operation between nations for the maintenance of enduring peace, which had its expression in the Covenant of the League of Nations. It is not to be said that Mr. Wilson originated this epoch-marking project. It was long pressed by other statesmen, notably by Mr. Taft, now Chief Justice of the United States. Mr. Wilson, however, gave his earnest support, and we may even say his life, to it. The President of the United States, personally heading the delegation of that Nation to the Paris Conference which closed the World War, Mr. Wilson enforced the Covenant upon the nations there assembled. As he himself said, he interwove it so inextricably with the Versailles Treaty that one could not be adopted without the other.

Whether history will, in recognizing the service performed by Woodrow Wilson to the theory of the League of Nations, chronicle at the same time the fact that his lack of practical political skill formed the greatest obstacle to the erection of that theory into an accomplishment, is yet to be seen. Those who believe in the League, and who applaud the earnestness and the complete self-sacrifice with which he devoted himself to it, at the same time deplore a certain unwillingness to admit others to participation in his task or to yield in nonessentials in order that he might have back of him a united country in support of the essential theory of the League. Recognition of the fact that more than one political party was concerned in the victorious entrance of the United States upon the World War would have done much to avert the calamity of having the League of Nations made a party A willingness to concede something in nonessential points, and to the wishes of United States senators to amend the Covenant before ratifying it, would have led to ratification of the Treaty of Versailles and the entrance of the United States upon a League, which, if not perfect, was, nevertheless, at all times, subject to amendment, This recognition President Wilson virtually refused. Against the concessions he was adamant. The failure, therefore, of his inspiring vision is historical.

It is not given to many men to be without flaw. Human greatness is seldom symmetrical. The most elevated of statesmen have their weaker sides, but in the long roster of great men who have filled the presidency of the United States there are few to whom history will award a greater guerdon than to Woodrow Wilson. He literally gave his life to the great world-wide humanita-

rian cause he advocated.

BACK to Scotland, whence it came in the regular course of legitimate trade and commerce, goes a cargo

The Price of Total Depravity

of so-called medicinally and chemically pure whisky, valued by its owners, a New York importing firm, at \$1,000,000. It is reconsigned to its original owners because those who bought and presumably paid for it three years ago have been

unable to dispose of it lawfully, though they are authorized under a wholesale liquor permit to sell whisky for medicinal purposes to druggists and hospitals.

News accounts describing the transaction state that the firm has rejected all sorts of offers made to it to dispose of the stock unlawfully, deciding to accept whatever loss may follow a return of the liquor to Scotland rather than violate the conditions imposed by the license it holds. Druggists who continue to handle spirituous liquors have found it more profitable to buy from bootleggers, who are willing to undersell the legitimate dealers when their wares come into competition. What a commentary upon the representatives of what has been long regarded as a worthy profession! As for the hospitals, public and private, it appears that they likewise prefer to buy where they can buy the cheapest. Many of those institutions have been the recipients of gratuities in the form of contraband liquor thoughtfully turned over to them by tender-hearted magistrates and enforcement officers. Although it has been shown, times without number, that the liquors thus donated are unfit

and unsafe for use as medicine, it would seem that they, along with the druggists, believe in making prohibition as objectionable as possible.

The profiteering druggist and the thoughtless or simonious hospital chief should not find it difficult simonious hospital chief should not find it difficult to convince their patrons and patients that under the "iniquitous" provisions of the enforcement law it is impossible to replenish their depleted stocks of liquors of an established standard. The druggist might explain, if he would, that one of the causes of his difficulty quite often is that friendly doctors who write prescriptions for whisky at so much per prescription upon request of addicts, make it difficult for him to fill such orders and keep within the regulations which the law prescribes for dealers.

Perhaps the turning back of a million dollars' worth of standard-proof liquor is in itself an incident of little actual importance. But it serves to reveal in all its hideous nakedness the avarice and greed of those who. while willingly entering into a conspiracy with admitted violators of the law, seek to gain for themselves an additional profit by imposing upon and deceiving those who place confidence in their claimed business and profes-

THE presence in Washington of Manuel Roxas to petition of the American Government immediate inde-

"Entanglement" in the Philippines

pendence for the Philippines does more than merely place before the people of the control-ling country the case of that archipelago. For the proposal is advanced at a moment when the United States is again consider-

ing the pros and cons of interna-tional co-operation, through interest reawakened by the Bok prize award and the discussion regarding adherence to the Permanent Court of International Justice, soon to come before Congress. Assuredly the historic course of events in the south Pacific isles, where the Stars and Stripes have flown for a quarter of a century, may be reviewed as throwing an informing light upon the far

In the spring of 1808, how much did "Philippine Islands" mean to any of the 75,000,000 people who then dwelt between the oceans, the Dominion line, and the Gulf? Were there anything like 7500 who would have needed more than a postal card to hold all they knew of that island group? Was there so much as a single one of these who they have the same than a postal card to hold all they knew of these who they have the same than a single one of these who then believed his country would ever be closely, not to say vitally, concerned in their development and future stand in the world? But the situation in Cuba, half a globe away, went from bad to worse. The Maine was sunk at Havana. The United States declared war against Spain. Admiral Dewey, in command of the American Pacific squadron, and then at Hong Kong, having to clear from that neutral harbor with short coal supply, was ordered to take Manila. And he did it.

So the close of hostilities found the United States "in the Philippines." Twenty million dollars was paid to Spain for them, and official pronouncement was made that occupation should continue only so long as might prove necessary to educate the natives to such a degree of experienced self-control as would safely warrant the grant of independence.

It is not necessary here to go into what has been accomplished in this great work, nor to emphasize what remains to be done. The present point is this: Twentyfive years ago the flag of the United States was set up 7000 miles to the west of the Pacific coast; there it has been ever since, and there it must stay for some time yet to come. This is to say that for more than a generation the United States will have been concerned intimately with all that vast and complicated segment of the globe which is called the Orient-yet not a day passes that one does not hear of "foreign entanglements," as though the words betoken something not only dangerous, but new and previously unattempted!

Some of the glowingly optimistic statements about the prospects for business and industry in the United

American

Markets

Continue

Strong

States during 1924, made at the first of the year by leaders of economic thought, are now confirmed. Operations in many basic lines, of which iron and steel probably are the most notable, have been speeded up to meet new demands, and this increased

pace of industry has found reflection in moderately higher prices in many important lines. The outstanding developments in the financial and business world last week may be enumerated as follows: the sharp recovery in sterling and the franc, the doubling of its "extra dividend" by the United States Steel Corporation, increased prices for wheat, improved demand for investment securities of all sorts, due to the continued ease in money, and, lastly, active and strong markets for securities with a definitely established upward trend.

Some of these important developments, which go to make up a background of constructive character, must, of course, be set down as seasonal. There has been nothing seasonal, however, about the quick reversal of the trend in sterling, for instance, or in many of the other financial happenings which aided in producing strong and active markets. The advance in sterling has carried it back some 15 cents from its recently established low point, most of which recovery was gathered last week. It is quite safe to say that this advance in sterling is the direct reflection of a very complete reversal of British financial

The advent, for the first time in Britain's history, of a Labor Government, literally threw the sterling market, for the time being, into a panic. But sufficient length of time now has elapsed to give the new Cabinet the opportunity to demonstrate that it does not plan vastly to change the established order of things, and that a sharp curb will be maintained on the party's "wild men." Under such circumstances, and with full regard for the realization that a part, at least, of the selling in sterling was

of hysterical nature, the sharp recovery does not excite a great deal of surprise in financial centers in America.

The decision of the directors of the United States Steel Corporation to put its common shares on what amounts to virtually a 7 per cent basis, by the payment of an extra dividend of one-half of 1 per cent, once more fired the imagination of speculative circles last week, and was one of the main factors in bringing about a higher and wider market. The stock market, in the language of the Street, is "getting the breaks," and appears to be taking full advantage of them. The movement of low-priced railroad shares, at the end of the week, was in anticipation of the probability that at least three of them will inaugurate dividend disbursements during the first quarter of this year. quarter of this year.

The situation in the commodity markets is a complex one, and offers several "spotty" sides. Cotton, for instance, has been dull and irregular during the last week, after a long upswing. The cotton trade faces the per-plexing situation of dwindling supplies of the actual, backed by a splendid statistical position, on the one side, and by gradual mill curtailment on the other. The advance in wheat prices during the last ten days has led to the suggestion that possibly, under the new set of circumstances which the spring will bring, governmental aid for the northwestern sections of the country will not

Markets of all sorts are peering intently forward to what the spring season may hold. Industrial and manufacturing operations at the moment are well up with those of last year. The problem which now looms is whether there is to be anticipated a sudden cessation of demand for goods and services at the end of the first quarter, such as appeared last year.

THE rich man has always played his part in the public affairs of art. Without him, there is hardly a

The

Rich Man

in Art

country or a town that would not be the poorer today in its heritage of beauty. From Solo-mon to Finck, and Freer he has been a lavish, if not always a wise, patron of art, and he has seen to it that the public profit by his patronage. His lapses of

taste have been at times astounding and lamentable. But, at least, he has not waited for the public to challenge his generosity in its regard. Ready as he usually is with his gifts and bequests, the necessity has been rather to put a curb upon this generosity when his eagerness as art patron and public benefactor has outstripped his appreciation as connoisseur.

This is no reason, however, why he should be expected as a matter of course to take upon his shoulders the obligations of a spendthrift state or town. Public money is obtained somehow for many and unpractical schemes supposed to contribute to the comfort of the people. But when it is a question of beauty, without which comfort is barren, the public exchequer has a way of running dry, while the reproach of extravagance, upon the mere suggestion of making the town beautiful at the people's expense, is heard from every side. We have all been watching New York through one of its not infrequent outhreaks of hysteria in a crisis of the kind, and now, as a final device whereby to obtain its much talked of art center, we find it cummoning the rich man to hand over his surplus millions, despite the fact that he is already quite heavily taxed, and thus to do what so wealthy a town as New York should itself do without

It is one thing to give willingly, quite another to be forced into giving. The rich man of virility must resent the ease with which his millions are squandered for him. Besides, so pleasant a short cut out of a difficulty would only help a town to shirk its responsibilities. If many towns in Europe have attained the beauty amazing to Americans unused to it at home, it is because these responsibilities have been faced and accepted. Economies, when essential as they mostly always are, must be n other ways, for beauty is valued as one of the town's chief assets, not merely for its influence on the character and taste of the citizen but as a good invest-

A beautiful art center in a beautiful town brings people to it, and people who have money to travel have also money to spend in the town and so help, if indirectly, to fill the public treasury. The mistake is to look upon beauty as something superfluous, something apart from daily life, and upon the millionaire alone as able to afford the luxury for himself and, by cajolery or bullying, for the public as well.

Editorial Notes

UNLESS he intends to pursue an absolutely uncompromising course, which would hardly seem likely, the first task of Zaghlul Pasha, the new Premier of Egypt, will be, under the 1922 agreement with Great Britain, the negotiating of the final treaty between that country and his own. This treaty must cover four principal subjects-security of communications (that is, of the Suez Canal), the protection of the rights of minorities, the solution of the problem of the foreign residents and the capitulations, and the control of the Sudan. Just what his attitude will be toward these important corner stones of policy, now that the responsibility is up to him, will be watched with more than usual interest.

MR. J. RAMSAY MACDONALD, the new Labor Premier of Britain, has just issued a statement regarding the spelling of his name. For years he has been listed in the British "Who's Who" as Macdonald, and the same spelling is to be found in the International Encyclopædia, while in the Americana he is given as McDonald. It is not necessary to discover how it was that the mistake originated. Suffice it that Mr. MacDonald has settled the issue once and for all, and that hereafter there need be no question whatever regarding it, no matter what authority is quoted for a different spelling.

Glimpses of a Great Man

The Avenue was thronged. Down its wide length from the Capitol a hushed multitude walled it in. Dignitaries, from the ends of the earth in blazing uniforms, and from America in frock coats and top hats, filled the stands before the White House. But along the Avenue, America was standing. They made no pretense and they wore no top hats. They were the plain folks of America. They did its work and built its institutions, and fought its wars, and believed in its ideals. They had a right, therefore, to stand along this way of honor. A small lad elbowed his way beside me. He tried, in vain, to see above the crowd. He looked up at me doubtfully. I smiled at him and he took courage.

"Mister," he said, tipping his cap with a boy's shyness, "I

"Mister," he said, tipping his cap with a boy's shyness, "I want to see Mr. Wilson. Mother says I must see Mr. Wilson. She says that some day I can say I saw Wilson as Grandpa tells now how he saw Lincoln. Will you lift me when he

So we waited there together. The lad stood patiently beside me. The line came on: the cortège of the Unknown Soldier; the flag-draped, clanking caisson; the guard of honor, and the solemn file of the Nation's great marching on foot behind it. They all swung past. The crowd stood silent. "Hasn't Mr. Wilson come yet?" asked the boy.

'Not yet," I said. And then he came. First the echo of a cheer up the Avenue. Then an open cab trailing the long procession. The cheer followed the cab as it approached.

The lad looked up at me/ 'He is coming," I said, and lifted him into my arms. The boy was breathless. His eyes were fixed on the cab as it approached. The cheer swept up to us. Mr. Wilson bowed and smiled-at us, it seemed-the boy and me. The cheer swept on. The cab passed us, trailing the procession, down the Avenue. The boy breathed deeply and looked at me. His eyes were filled with tears. "Now," he said, "I can tell mother I saw Mr. Wilson."

It was an old-fashioned New England garden. Fall flowers ran in riotous fashion over narrow, twisting paths. An old stone wall-tumbled across the garden's end-was overgrown with ferns. Tips of fall foliage fringed the woods beyond. A touch of the sea was in the wind.

We sat on a wooden bench, placed in a patch of sunlight just within the garden gate. He talked of Woodrow Wilson, for he was Woodrow Wilson's friend. He'recalled days in the White House-dark days, when every hour was weighted with fateful consequence. He had sat with the President then. He had stood by while the foes of the President's idealism came to him to urge that his idealism be compromised. "'Idealism,' they said, 'that's all very well. But this is

the Government of the United States. Idealism talks well, but what can it hope to do in these practical concerns?" 'And the President would smile and turn to me and say: Idealism has never had a chance before. I believe it is worth

the chance we are giving it. Don't you? And he didn't compromise. He may have failed, but he was true."

And then he told of days in Paris, and in London, and in Rome. Of a world weary of strife-looking for a great deliverer. Of the triumphal entry of this man into the hearts of all mankind. He told of how the world was lifted in those days out of sordidness and given to see a new heaven and a new earth. And how that vision, in the intrigues that followed it, was shattered.

But he lifted them into the sunlight," this friend declared. "And the beauty of that vision-like these flowers and the freshness of the sea, and those leaves above the wall, there-will help the world, perhaps, to find its way again back into

She had never seen him. When he came to her city, and the multitudes acclaimed him, she could not go. But she knew him. On the wall, where she could see it through the day, there were two pictures. One was of a lad-a lad in uniform, with a single bar on each shoulder and silver wings on his breast. The other was of him. And the pictures belonged together. For the young lad had gone out-had been sent out from this very room-where a mother and a son had pledged themselves to the new world that this other heralded. The son had not returned to that trysting place. So the pictures there, of the lad and of the man whom she had never

seen, were her altar of sacrifice.

And through it all the room was a room of joy. And day after day she watched as the President fought for those things for which her son had gone forth. And when he, too, apparently was broken, still there was only joy in that little room.

The two pictures hang there now, where she can see them through the day. "It is my altar," she declares, "and who can say but that these sacrifices—my sacrifices—will bring us, yet, to the attainment of their high ideals?"

It was a book of ancient wisdom—old and worn with use. It lay upon the table in the President's room. Each night he took it up, turned quickly, with a long familiarity, to some special passage, and read from it. And great achievement, and the dignity of high office, and the plaudits of all the world could not remove that book from him. He was, first of all, a man who knew God-and a better President because he knew

Then, when he had read, he kneeled and in a holy moment lifted his heart into an Eternal Presence and his vision there gave him strength when, on the next day, he wrought out the

For Woodrow Wilson-so his closest friend declared-"fought that he might help to set up the Christ-kingdom among men." And in the Bible that lay there at his side, one nay be sure he often turned to the parting words of another-old campaigner: "For I am now ready to be offered and the time of my departure is at hand. I have fought a good fight, I have finished my course, I have kept the faith." S. H.

Russia's New Education

RUSSIA is crammed with educational romances, these days, according to Dr. Anna Louise Strong, writing in the Survey. "In the Russia of the Revolution," she declares, "there are schools carried on in sixty different languages and textbooks printed in all of them. Some ten or twelve of these languages had first to be reduced to writing. Tens of millions of textbooks printed in the Course was tended by the Course was tended to books were issued by the Government Publishing House in Moscow, in the five months from April to August, 1923, for the job of teaching Russia. This Government Publishing House is the largest publishing house in the world."

Miss Strong has spent a longer period in post-war Russia than any other American. She writes that "last year in Russia proper, not counting the Ukraine, 120,000 teachers out of a total of 150,000 took special courses to prepare themselves for this new form of school."
